Farewell To Mrs. Harper . . .

Letters

Dear Editor:

May I quote from an editorial which appeared in the first issue of the Bucknell Beacon. (I must admit that didn't sound phoney at the time). "It is our hope that the staff shall grow the next year. It is our hope that your ideas and your copy will find their way to our empty drawers, and it is our hope that your feelings shall be voiced in our pages." This same editorial expressed a desire to attain higher standards of excellence, to lay new foundations, to develop a policy.

Where has all this spirit gone? If it had really been, it would never have dissipated itself so soon. Where have these "super Beacons" been? Instead of a bigger and better Beacon we have had fewer Beacons. As a member of the student body I feel that I express the feelings of a large number, when I say that we are disgusted with the way the Bucknell Beacon has been handled this semester. From the tone of that first issue we were led to hope for better things than we received. We are disappointed and feel that some explanation is due us - don't forget that student activity fees pay for the Beacon.

Editor's Note: Though it has not been customary for the editor to answer any of the letters which have been written to him, this sort of challenge calls for an answer. This he shall attempt to do to the satisfaction of the disgruntled members.

Dear Student:

editorial called "Aspiration" which not the one who are capable of Wilski, was taking the course appeared in the first issue of the Beacon in 1940 but you have failed rate, there will be a new staff next of the new stipulation. Miss W to record the sentence which im- year and with them the paper may was doing an excellent piece mediately followed your quotation: May I quote: "This is possible vital a part of our school life as for stances prohibited her from g only with the cooperation of the student body." That same editorial brought out quite clearly the fact group working on a school paper, that there existed a certain disin- but a one man tragedy it should terested attitude toward the stu- never be. The trick lies not a student activity and should and luck — they'll need it. not be regarded as such. Neither

It is fitting and proper that in our last edition of this year's Beacon, we say farewell to Mrs. Michael Harper, who resigned in May of this year. Mrs. Harper came to Bucknell Junior College in 1937 as Miss Barbara Ryerson, and while here has been instructor in French and English Composition. been added to the Civilian I When Spanish was added to the Training Program. curriculm this year, she was also chosen to teach that language.

As adviser to the women, she graciously aided at all the women's functions and was always willing to act as chaperone at any tea dances. She was also Business Adviser of the Beacon.

Mrs. Harper attended LaSalle Junior College in Auburndole, near Boston and received her Bachelor or Art's Degree at Wellesley College. After graduation she went abroad for several years, studying in France, Switzerland and Spain. She received diplomas at Sorborne, France, Rausone, Switzerland, and Madrid, Spain.

Large Class To Convocate Tomorrow Evening

Bucknell Offers Ten Week Training Course For National Defense

Bucknell University Junior College and the Pennsylvania State College, as part of the Engineering Defense Training Program sponsored by the Federal Government, will offer a ten week's course in for qualified high school graduates whe are not planning to enter college in the Fall. Except for text materials, all costs will be borne by the Federal Government.

This course, which will be a full daytime program, will run for a period of ten week, five days a week, beginning the close of the present high school term. Graduates of the present senior class or have the requirements for entrance to this program will be accepted.

The objective of this program laurel wreath of victory. is to provide high school graduates with elementary engineering training so that they will be prepared to aid in American defense production. Completion of this summer work will help to equip young men

ANNUAL DINNER-DANCE TO BE HELD THIS EVENING

The social events of the Junior College will reach a brilliant climax this evening with a dinner-dance to be held in the delightful atmosphere of the Irem Temple Country Club. The dinner dance has become an annual affair at the College and all look forward to it with anticipation. The dinner will begin promptly at 6:30. Music for dancing will be furnished by Jack Melton and his orchestra immediately after the conclusion of the dinner.

A large number of tickets has been sold and since this is the last will be long remembered.

Joe Slamon is chairman of the affair. His committees are as Jane Bergh and Chris follows: O'Malley, menu; Jane Nagro and Shirley Higgins, patrons; Guarnaccia and Harvey Wruble, favors; Art Frith, publicity and pro-

St. Peter shook his head in pity, "Come in, poor thing, select a harp. And growely touched a ideas and more belief and confibell. You've had your share of-

What's ho! Here we are again | Stuff and where not to get it-

On my futile search for "Things Fit to Re-Print", I have felt something like a slackening trend in collegiate publications. It is true that if we want to read something about the trouble, turmoil and disaster going on across the oceans we turn to a daily paper or listen to the radio, and yet I believe that College students are still interested in things a trifle more important than "Who's Mary going out with?" and "What did Bill do in Engineering class?" and "Did you hear, somebody burned a hot dog in the cafeteria?" This does not mean, of course, that I advocate a paper reduced (for that would not be elevated) to a super-intellectual level, for after all, the College paper should be the forum of ALL students, not of a special clique; this shall mean, that since there are many students who have constructive ideas which might be of benefit to other members of the student body, the college paper should be the medium which brings these ideas to life. There are grave problems confronting us, all of us, and I say, help the British, after all yet, when picking up an average earth than items like "Butch and Jane were seen on Main street at It was the kind of a party 12:00 p. m. last night" and "The kitten in French class was the most interesting development during the

> Last week, my mail box was honored by an inexpensive-looking folder bearing the title, "The Student Federalist," with the subheading, "For a Federal Union of all Democracies." No, don't lay away the paper, for this shall just be an objective remark on the theme; those of my readers who know my personal opinion on the subject, know I favour it, but we shall leave this for some other time. The thing I wanted to point out, is this: there is a group of young people, college students like you and me, who don't consider the future a thing somebody else should work out for them, no, on the contrary, they know that they themselves have to create their own future. They realize that their path will be a thorny one and yet, they have chosen it, and they shall reach a victorious goal.

> And so, let this be a leaving thought: let us have more new dence behind them to back them

Convery Elected Lettermen Prexy

James Convery was elected president of the Lettermen's Club, succeeding Paul Davis. For some unknown reason members of the swimming team usually land this important post in the club. In remarking about the new prexy, Coach Clarence Obitz of the na. tators said if Convery scores as many points in meets as Davis did. he will be satisfied. Convery will have to be a miracle man to turn this trick because Davis was a veteran performer.

The school should have an outstanding cager about 17 years from now. Coach Walter Thomas recently became the father of a bouncing baby boy. His first child was a girl. With the new addition each coach now has at least one boy. Obitz leads with a couple.

The faculty bowling team made many new friends for themselves and for the school during the past year. The team didn't have such a successful season but it did have a lot of fun. Shortage of players on certain days when the various teams were on road cost the Bisons a chance to make headway in the fight for the pennant. With a few more players the team may go places next year. If the school employs a few more male instructors next year the bowling team may get some new members.

New Regulations For Gym Students

The Bucknell Junior College physical education department headed by Dr. Roy C. Tasker has drawn up several tentative regulations for the men students taking physical education during the 1941-1942 terms. These regulations have been worked out by a special committee composed of Walter Thomas, Joseph Curley, Arthur Frith and Clarence Obitz after consulting Dr. Tasker.

The main change in department activity will be the setting up coach, will lose four men from his of a new physical education program whereby each student must "Butch" Davis, high scorer for the learn the fundamentals of each sport and must learn the art of swimming in order to receive his physical credits. A minor change is the compulsory gym suit each student taking physical education is required to wear a regulation Baseball will lose all of its gym suit with the Bucknell Junior College insignia enscribed.

A third change is the requirematriculate at Rider College, Tren- Tow Owens, Grier Carpenter, Dean ment of similar suits for intramural sports since teach team member must have a regular team suit different from the regular gym

These rules will go into effect at the start of the 1941-1942 term this September.
