## drugs at Wilkes?

by Jonathan Eames

It is almost impossible to ve in the United States and it to have noticed the administration's going crusade against college must address. rug use

One of the ways in which he administration is doing his, a way which some see as nfringing on the rights of citizens, is andatory drug testing.

If Reagan and his ministration have their ay, people in all walks of fe may be subject to urine sts for illicit drugs.

Vith the ministration's increased ncern over drugs, a valid estion might be, "What all all this mean to students d others on the Wilkes

There is no simple insver to this question, but order to attempt to find ne, a variety of viewpoints nust be considered.

dean of Student Affairs, feels the use of drugs on campus has decreased over the past few years, but that it [drug use is still an area the

Adams also feels the drug issue has become more of a focal point because of recent exposure in the media. "It's a big issue," he said, "it's everywhere." He feels the national attention paid to drug use must make it an issue here at Vilkes.

As far as any official Wilkes' policy on drugs is concerned, Adams said the drug policy is covered under the alcohol policy. "When we become aware of the law being broken we are obliged to attend to it," he said.

"We the administration | aren't mounting any kind of campaign to look for people using drugs," he added.

Robert Heaman, associate dean of Academic

Is there drug and alcohol use at Wilkes? See related stories on pages 3 and 5.

Affairs, agrees with Adams on this point.

"The [College] won't police student ranks . . . there will be no gestapo tactics," he said.

However, Heaman College will not turn people in to police, it is not a consumers. for sanctuary people breaking the law.

Both Adams and Heaman pointed out that while the feel Wilkes College is mainly a campus of alcohol

## 'Hop named Vice President

by Wendy Holden

On July 1, 1986, Paul lop, Sr., was appointed the

new Vice President of Business Affairs and Auxiliary Enterprises here at Wilkes.

of Hop joins Wilkes' administration as Vice President Business Affairs and Auxiliary Enterprises.

Although he is fond of students' the area and the people at Wilkes, he joined the staff only recently. He began as an associate professor in the Department of Commerce and Finance here only one year ago when, as he says, he was drawn by the aura he felt the College emanated with its high regard for the faculty and the students and their commitment to one another.

A graduate of George Washington University in Washington, D.C., O'Hop has received both M.B.A. and B.S. degrees. An active citizen, he serves on several boards and committees and has received numerous awards for his contributions.

O'Hop said that he never thought of himself as a teacher, but rather as an educator. He believes that in being an educator an individual stimulates the

interest therefore leads a student to commit himself to the goal of education.

Now that he has assumed the role of Vice President of Business Affairs, O'Hop's responsibilities are much more complex. As chief financial and contracting officer for the College the following services are under Resources Human Management, Computer Support Center, the Finance Office, the Business Office, the Bookstore, and auxiliary enterprises, areas in which the College sells or supports outside of academics.

O'Hop said that even though the job complicated, he does it with an ever-present smile.

Much of the reason behind his diligence is that he wants to improve and enhance the College. He

and believes that the entire organizational reconstruct-

## The whole is only as good as its parts

I don't enjoy picking on the Wilkes College students each week, but when I look at Wilkes I see that there is a definite problem. Often times the students are the core of the problem (or at least a

contributing factor).

It seems to me that there is a method that one must follow in solving a problem. The first step is recognizing the fact that there is indeed a problem. As I have stated, there is a problem here at Wilkes. The problem of which I'm speaking deals with the way that students treat the property of the school. Looking around the campus, and watching and listening to students has brought the problem to my attention.

Last week I was sitting in the snack bar, and I observed something that disturbed me. A group of students were at a table and one of them knocked over a can of soda. The students picked up the can and put it back on the table. They did not bother to clean up the spill. They didn't even notify a snack bar employee so that he or she could

take care of the mess.

Another example-take a look at the carpet in Stark Lobby. There are a number (a very large number) of cigarette burns in the carpet. They are obviously intentional scars; there are too many of them to be attributed to an occasional dropped cigarette.

The second step is planning a "method

Jo Zukoski, Lori Santarelli.

of attack"--a course of action. The Stark Lobby will soon be renovated. Perhaps when planning the new lobby, the installment of ashtrays would be wise. Banning people from smoking in the lobby is not helping the problem. If there were ashtrays in the lobby, at least the carpet would be saved. The students must also do their share by using the ashtrays once they are there.

As far as the other problems go-the general disrespect of property--maybe the students should begin to think of the college as their property too. After all, they are paying for it! This may be a bit of a cliche, but I wonder if the students treat their homes as they treat the property of the college. I would love to see a student extinguish a cigarette on his living room floor because there is no ashtray to be

The final step is the actual solving of the problem following the planned course of action. If every student would do his or her part, the problem would be on its way to being solved. The behavior of any individual part of an organization is a reflection of the whole. With this in mind, I would suggest that the students of Wilkes take pride in their actions and see themselves as a part of the college. If the students' behavior improves so will the image of Wilkes College.

## Advice for 'undecided

There is a lot of difference between not wantting to decide and not being able to decide. My diagnosis of the people who suffer from this symptom is simple. they really don't want to decide of simply can't be bothered.

You do not need to be a genius or extemely well organized to be able to decide what you want to be when you grow up. You can never tell what you would feel like doing (if anything) say five years from now

So why not decide or pursue at least one interest, so that a few years from now, you will be able to start on the next one, otherwise you will say "Oh, if only I had started that by now I [would]

## Changes needed Comment in bookstore

Editor of The Beacon,

I am not a pessimistic person, and I am not one who complains at the drop of a hat, but I have stumbled upon a few note-worthy problems with the Wilkes College campus book store.

I have difficulty adjusting to the hours the store is open, the prices for different items according to their size and quantity, and the location of the store

Mine is a view held by many students here at Wilkes, and I feel that there may be a proper solution if we look hard enough.

First of all, I mentioned the fact that I think the hours are inconvenient. Monday through Friday the store stays open from 8:30-4:30. I personally don't know why if can't remain open until 6:30 in the evening. Some classes aren't over until 5:00 anyway! And why can't the store open an hour earlier for those emergency purchases before and 8:00 a.m. class?

If the store is there for our convenience, then I think the hours should be flexible to the schedule of the majority of the students on campus.

Also I have another complaint about the store's hours on weekends. What happens if a student needs a bar of soap or a bottle of Saturday on shampoo morning? There is nothing more aggravating than finding a closed door especially in an emergency situation.

I also feel that the prices in the store are too expensive for limited college budgets. I did a little research, and I found that prices in a drug store are cheaper. A few cents here and there in my opinion add up in the long run.

The book store offers 130

## Group helps non-traditionals

by Bill Barber

If you are over twentyfour, have been out of high school for over four years, and/or are married and living off-campus, and find yourself outnumbered by the younger generation, there is a social group at Wilkes College that might be just right for you.

The group was founded in 1985 by Ann Calkins, a senior sociology major and mother of six who started back to college at forty-two. When Ann transferred from LCCC to Wilkes in 1983, she found herself, as an older student, completely alone. She describes her experiences as feeling like she had been "dropped off on the moon." She decided to do something about it.

This semester, the non-

traditional students' group had its first meeting on September 25 to draw up its plans for the coming year. On the agenda was the creation of the new name: "Older Kids" ("O.K.s").

The main purpose of the O.K.s is to act as a support group for non-traditional students as well as to function as a social organization. Casual meetings will be held in the student lounge on Thursdays between noon and 2:00 p.m. The next official meeting will be held at the end of October. There will be a monthly newsletter listing the group's planned activi-

For further information, please contact Ann Calkins at 823-2794, or leave your name and address in her box at the college bookstore.

Stark Lobby to see MD major renovations AD

Students will no longer have to sit on the floor while waiting for classes in Start Jouncil; Rachae Lobby. New furniture and floor coverings are part of the planned renovations.

by Joe Kultys

The Lobby of Stark Learning Center is bare and barren now, but soon it will be better than before. The old furniture and carpeting had to be replaced. There will also be major renovations which will include dividing the Lobby in half and also the addition of an Information Office in the Lobby area.

This information comes from Charles Abate, director of Business and Facilities Operations. "We want something both aesthetically pleasing, and that also has serviceability," said Abate.

Unfortunately, many of

the details are not known at this time. "We are still looking into floor coverings and furniture," he said.

'One half of the lounge area will be carpeted," commented Abate, "and the other half may be turned into a study area, with tables and chairs.

It is hard to pinpoint an exact cost at this time, and a completion date is still being discussed. "There is a lot involved in the project," said Abate. "We have to select and purchase furniture and floor coverings." Abate added that other renovations will include the construction of the new Information Office, along with the electrical

work which will be neereturning memt

Abate said he would right and Board happy to furnish tosania, Studen details as they benent; Ruth Bende available. "It is one dobino, resident top priorities at this and John William all president. he said

Abate also explained Three cases ca the old furniture is sine ADB during storage. "Most of the week of this seme and cushions are riprere found to be added Abate, "but the fr

## ADB hears cases, makes'adjustments'

by Jim Evelock

"We took a critical look at srole and performance, ind made adjustments," stated ssociate Dean of Student Mairs Paul Adams in eaking of the revised Mohol Disciplinary Board

The "adjustments" were nade this past semester, entailing the assignment of people to the committee who will have "more experience disciplinary matters,"

The new representatives om the campus include: Pul Adams, Student Affairs uncil; Rachael Lohman, Idministration; Dr. Michael ur, faculty (the only rewrning member of the origninal Board); John ania, Student Government Ruth Bender and Mark lobino, resident assistants; riorities at this time and John Williams, resident all president.

Three cases came before d furniture is still in the ADB during the first veek of this semester and all vere found to be in violation

of the policy.

Sanctions included penalty charges which are different sums of money for varying amounts of alcohol, disciplinary probation, and attendance at an alcohol education program.

Commenting on disciplinary actions, Dr. Michael Garr stated that one goal of the Board is "to set consistant standards" for sanctions, but that it is hard to show consistency since there hasn't been an abundance of cases. He also stated that this year there is "more willingness to compromise" among Board members concerning disciplinary actions.

The Alcohol Disciplinary Board may be seeking consistancy, but they do not have total agreement on matters such as the effects of the alcohol policy on the

Dean Adams feels that the quality" of life has improved on campus, emphasizing the non-alcoholic activities. Garr, on the other hand, feels the quality of life

has not improved and he questions how the school has replaced the function of alcohol on campus.

Commenting on effectiveness of the policy. Garr noted that enforcement depends on the R.A.'s. He added that as the situation goes, either there is "inconsistant enforcement of the policy by the R.A.'s or the policy has stopped drinking at Wilkes."

One R.A. speaking on the duty to report alcohol usage stated, "I haven't come across the situation yet, but if I did and the people were being rude and obnoxious, I would definately turn them in. However, if I came across them by accident and it was only a beer or two. I wouldn't. I know that most R.A.'s feel and would react in the same way."

This R.A. also added that the amount of respect received from the students would play a big part in the

## Neagley to perform, hold workshop

The Wilkes College Theater and the Debate Union will co-sponsor an oral interpretation by Mary Neagley, professor Language, Literature and Fine Arts at Messiah College, from 3:30 p.m. to 5 p.m. tomorrow in the Annette Evans Alumni House.

Neagley will perform Why I Live at the PO by Eudora Welty. Following her performance she will hold an oral interp workshop for anyone who may interested

Neagley defined oral interp as "an instrumental tool in a way to appreciate literature more precisely. The literature tends to breathe when someone understands it more clearly."

In her performance she will use over five different voices and in order to develop this she picks out a

distinguishable characteristic and then builds a vocal picture of that person.

The workshop include skills needed to perform oral interp such as analyzing text, cutting the script and characterization as well as developing the different voices needed to perform oral interp.

Neagley received her bachelor's degree in Speech, Communications and Theater Arts from Clarion University and her master's degree in Communications from Western University. Throughout her college career Neagley has won numerous awards while she participated on the forensics team. She has gone as far as winning state and national titles and was also part of a national team for Clarion University.

Admission is free and the public will be welcome.

## ble for clubs at Employment izations at Wilkes at a Employment XI slated

by Lorri Steinbacher

On Attention seniors! ursday, October 30, from 4pm., Employment Fair XI ill be held in the Wilkes ollege Gymnasium. I'm sure this point in your ucation you are beginning consider not only the type liob that will take up your but the actual locations ou on your career.

The event is cosponsored Wilkes College, College sericordia, King's College, drywood College, and the iversity of Scranton. It ford seniors and undere in contact with a wide nformal setting.

Eugene Domzalski, Director of Career Services feels the employment fair is a vital part of the Wilkes College senior's final year. Employment Fair represents a valuable link between employers and the student body. Students have an opportunity to meet with a cross section of organizations amd gain insights indcompanies that will start into many different occupations and employers."

Students are urged to attend but also are urged to come prepared. ## Neal mesmerizes Wilkes Lib

by Lee Morrell

According to Mr. Webster, hypnosis is "a state that resembles sleep...where suggestions are readily accepted..." Ask any Wilkes student who attended The Astonishing Neal's performance last Friday night, though, and he'll tell you that hypnosis is watching one's friends chasing animals, playing dead, or not knowing one's name.

Yes, The Astonishing Neal did all that and more during his performance at the CPA last Friday.

Aside from his ability to hypnotize. Neal has ESP (extrasensory perception). One of the amazing things he did was to guess the amount of money in a student's pocket-to the cent!

Neal helped the audience bend twenty penny nails and some students' room keys--of which three broke. He even fused three men's rings together to form a chain. The three men who volunteered their rings are apparently looking forward to some good luck. According to Neal, two men who have volunteered rings in other performances over the last few years have won over \$50,000 in state lotteries. Another man, who hadn't ever received a promotion in his job, received three in one year after volunteering his ring.

The most interesting part of the ESP portion of the show was Neal's "revealing" of some people's innermost secrets. He told the audience of many deep secrets from an underwater kissing incident to Millie's blind dog's suicidal swan dive from an attic window.

The most entertaining portion of the evening, though, was the hypnosis part when he invited members of the audience onto the

stage to participate. By the evening's end, Neal had made believers of us all, including one very skeptical rabbit chaser (me!).

I'll try to relay to you the feeling of being hypnotized. First of all, "going under" is nothing like it was on Monday night's "Late Nite with David Letterman." It is simply a feeling of complete relaxation.

As strange as it may seem, I felt as though I had total control over my actions. All I was doing was reacting to Neal's suggestions.

For instance, he told us to "draw" a circle in the palms of our hands. In that circle, we were to envision an animal. What the animal was, was up to each subject's imagination. Then it became very real. I really saw a rabbit—it was there. Neal told us to pet our animals; I really did pet it. He said it would leave my hands; it

really did jump out of my hands. Neal told us it would grow to be ten times its size and it really did grow. Everything he said would happen really did happen. Ask any of the other subjects and he or she will give you a similar recount of the experience.

He then "shot" me in the head and I was "dead" until the end. While I was "dead" he played with some of the other subjects' names. One was told to forget her name, another knew hers but couldn't say it because her mouth was "glued" shut, and a third's name kept sticking in her throat. One student's name was Godzilla and another insisted his name was Sally. ("My name is Sal, I'm quite a gal.") And one poor soul could only say his name backwards.

The Astonishing Neal closed our hypnotic state with something very

freaky. On the courthree, he disappeared all we saw was a flat microphone and a white We were told we woulterrified and wherever went we were to run from him. He then 'n peared' in an aisle in audience. On his come we became "Ghostbus who were to stalk after shoot at him.

After we shot his reappeared on the stage we surrounded him use disappeared again. We was almost over, Neal at to reappear-piece piece. First his head torso, arms, legs. . again whole.

The Astonishing Net on a wonderful show, seeing how he loved Wilkes crowd, those of who missed him should another chance soon.

## Students speak out

Do you think there is an apathy problem at Wilke

"It stinks. I'm really embarrassed by it. Before apathy can change, the students have to change."
-Michelle Palmierei

"The Programming Board is doing a lot to change it. I commend them."

-Renee Strucke

There's no more here than anywhere else. Thinking about apathy toward Wilkes College events and ignoring apathy toward national and international issues is pretty apathetic."

-John Bames

"In the past it has been rampant, but it's decreasing steadily."
-Suzanna Bernd

"People don't was participate, they want to make the effort."

-Dave Greene

### Programming Board presents

Friday, October 4 in SLC 1 at 7:00 p.m. and 9:30 p.m. BE THERE!

## Have you lost your girlish figure?

by Lorri Steinbacher

Let's face reality. Life offers a host of culinary temptations--hotdogs, hot fudge sundaes, chocolate cake, Mom's home cooking. And let's also face up to the fact that more than one trip to a fast food restaurant a week can start to take a toll on the old figure. With all these temptations around who can be expected to resist?

Have you discovered your thighs lined with some extra fat? Have all those McDonald's cheeseburgers miraculously found their way to your hips? If so, the Wilkes College Health Service has come up with a program that just might be able to help.

Keeping in step with their wellness concept of health care, the Health Service, in conjunction with Campus Counselling, is offerreduction program. The structured program is dereduction including the aconly come off, but stay off.

The program would begin with a complete assesswhich to start a diet. A nutrition assessment by Mary Supey would be a very vital part of this. By keeping a diary of his or her food intake the student could see the problem areas of his diet and make the proper changes necessary. This would also help to set up a realistic calorie goal for the individual once the actual dieting has begun.

Mark Sowcik would also help the participants in the program with their behavioral modifications. Dieting is only half the battle. The other half entails teaching the mind to accept the right kind of eating and all the emotions that go with dieting and getting thinner. He will also discuss the impact society has on thinness.

Another important aspect of the program is the support that will be available. As anyone who has ing a comprehensive weight been on a diet knows, when you have a weak moment, it is very hard to talk yourself signed to help the individual out of it. In this program you in all phases of weight would not only have Mark and Mary to turn to, you tual weight loss, proper would have your own peers.
diet, exercise, behavior These people are going modifica-tion, and that state through the same things of mind of the dieting along with you so talking person. In this way, catering over the trials and tribulato both the body and the tions of your diet will make mind, the weight will not you feel more secure and committed to what you are doing.

The goals for the proment of the individual's gram would be about two or health-a health history, to three pounds a week. This is provide a sound basis on not intended to be a fast

\*

reducing program. It is a healthy, individual program that is designed to promote consistent, sustained weight loss. The goal is to eradicate the yo-yo pattern of losing weight and gaining it back. This is not only depressing. it is unhelathy and takes a toll on the body.

The program is due to begin Thursday, October 23 and would continue until Christmas break. It is designed to start a person out on the road to a healthy lifestyle and to dietary changes that she may carry throughout life. Maintainence of weight loss should be stressed.

The program is open to anyone who feels he or she may need to lose some weight. Whether it is a lot of weight or just a little, the problems are much the same. interested students contact Mary Supey or Mark Sowcik at Wilkes College Health Service on the second floor of the Student Center, Ext. 494, between now and October 23.

So come on, those pounds aren't going to walk off your body. Maybe it's time to try a sound, healthy diet. Who knows, it may be the smartest move you could make

## The history of the Wyoming Valley continues

by Kim Klimek

This Saturday, the second installment in the "History of the Wyoming Valley 1986-87 Lecture Series will Evans Foundation for be presented at the CPA. Dr. Charles Reif will speak on "The Geological History of the Wyoming Valley." Dr. tation, arts and cultu Reif is Professor Emeritus of

Biology at Wilkes.

The series, which began on September 13th with President Christopher Breiseth's lecture, "An Overview of the History of the Breiseth's lecture confin reason students attend Wyoming Valley." developed by Dr. Owen Faut, Professor of Chemistry. After realizing that the community had the resources and background necessary in developing an historical program, Dr. Faut contacted the individuals he had in on weekends at the mind to participate. Because They will begin at 8:00 pt.

Dr. Faut was to take a leave of and will be followed by important thin Dr. Faut was to take a leave of absence, he then asked Dr. reception.

William Stine, also a che istry professor, to serve coordinator of the series.

The eight-lecture se is sponsored by the Anne Arts and Humanities. Top will include geologi changes, means of transp changes, technological vances and education business and econo changes in the Wyom life, other than make a l Valley.

The audience at Presidence the expectation that series would generate a ening. munity interest. Dr. estimated that 200 of the people who attended lecture were residents of Wilkes-Barre area.

The lectures will be h

# A better reason for going to college

by Jim Evelock

I cringed in dismay as I read the opening sentence of Amy Hancock's article, "Undeclared and Proud Of It," in last week's issue of The Beacon. The line read, "... I was totally uncertain about what I wanted to do with my life, other than make a lot of money." "I want to make a lot of money." "I want to make a lot of money." may be the main reason students attend college. This is truly disheartening.

"...money and
material objects
are not the
important things
in life...being
happy with
oneself and one's
career are the
things that truly
matter."

Is money the only thing that matters in today's society? What has happened to personal fulfillment and choosing a profession that one might enjoy, instead of the one that pays the most annual income? I hope these values have not gone the way of the dinosaur and Grated movies.

When a friend of mine well-rounded citize found out that a mutual I'm afraid the difference of ours would not be happens. William F. will give away his Exmester, and would quite join the Peace Corps.

possibly never return, his reaction was one of outrage. He could not believe that this person could throw his life away or more importantly, throw away his chances of being financially wealthy and secure. I tried to convince my friend that money and material objects are not the important things in life and being happy with one-self and one's career are the things that truly matter.

Unfortunately, I could not persuade him to see my point of view. I'm not trying to say that ambitions, even for wealth, are wrong, but ambitions can mean much more. It saddens me to think that the only thing that motivates young adults is money

I have a theory that this desire for money is the cause of campus apathy. The students enroll in college so they will be able to earn money, but they can't amass a large sum of money until they finish college. The students don't really want to go to college, they just know they have to in order to earn substantial amounts of money. Therefore they are trapped in a place they don't want to be, and apathy

Hopefully this theory is wrong, and maybe a group of idealistic students from Wilkes will read this and respond. Maybe letters will pour in from college students from all over America saying, "Hell no! We're going to college to further our education and become well-rounded citizens!" But I'm afraid the day that happens, William F. Buckley will give away his BMW and join the Peace Corps.

# The Quiet Riot: "Made in America"

by Lorri Steinbacher

Yes, ladies and gentlemen, the Programming Board is at it again, this time in conjunction with the CPA's Concert and Lecture Series. On Friday, October 3. The Quiet Riot will be performing in a program entitled "Made In America." No, it is not the Quiet Riot of heavy metal fame but a unique mime and comedy team.

The Quiet Riot consists of William Mettler, Dave Mettler and Kevin O'Connor. Their program is an interesting comedy about two American boys, it follows them through the trials and tribulations of their lives. This is not just straight comedy, it is comedy with a meaning.

The three members of the team have some extensive and varied experience behind them, so each member contributes something different to the show. Between the three, they have travelled worldwide, led rock climbing expeditions, worked with drug addicts, harvested cotton in the fields in Israel, worked construction, flew airplanes,

The Quiet Riot thought of its name one time when it performed in street theatre in Philadelphia and attracted a crowd of 300 passersby and several policeman.

"Moonie" commune, and have worked with the CIA.

In addition to their life experiences, O'Connor and William Mettler were trained in mime, modern dance, ballet, jazz dance, and martial arts. David Mettler is greatly involved in the lights and sound aspect of the show.

Performing at colleges so what have you got to lose?

since April 1978, The Quiet Riot has also appeared at regional theaters and festvals throughout the country. With this vast experience behind them, the three are sure to entertain and enthrall the audience.

The performance will begin at 8 p.m. on Friday, October 3, in the CPA. Admission is free, as always.

Dave Wopat, talented entertainer, thrilled the audience in the Stark Lobby on Tuesday, September 30, in the second installation of the No RSVP Coffeehouse Series. Wopat's show consisted of a mixture of original and cover material, both serious and light-hearted compositions. He covered such favorites as Police's "Message in A Bottle" and tunes by Jackson Browne, Bruce Springsteen, and others. Although he does not at present have an album, an EP is expected within a year. Any students who had the misfortune to miss Wopat in action quite possibly missed the best "activity period" ever.

#### DAME TENE Drug use at Wilkes? Continued from page 1

Wilkes is pretty much a drinking campus," Heeman said.

Most of our efforts are aimed at alcohol," Adams said.

However. both also realize the existence of drugs on campus.

"There are drugs here," Heaman said, "but I don't think they are getting in the way of development."

The effects of drugs are less visible [than those of alcohol | Adams said, "but we realize they are here.

Mark Sowcik, director of the newly formed Campus Counseling Department, also recognizes the presence of drugs on campus.

However, Sowcik surprised by the lack of drugs discussion about around campus and expected drugs to be more of an issue.

People will tell me 'I got drunk last night," he said, "but no one will say 'I got stoned last night."

Sowcik feels the College is fairly tolerant about student needs, though. "College is a place for testing and growth," he said, "and testing and growth may include drug use.

Sowcik agrees with both Adams and Heaman about the handling of an individual's drug problem. All three feel the main goal of any action by the College concerning such a problem is the benefit of the individual student.

Anything we

administration | do is first for the student's benefit," Adams

Dr Michael Garr, Assistant Professor Sociology and member of the Alcohol Disciplinary Board, feels it is nearly impossible to judge if an individual has a drug problem.

The only way to determine a problem is if the individual comes forward with the problem," he said.

Garr also feels valid information concerning drug use is hard to find. But, in an informal survey he gave his freshmen sociology students, he found percent have tried pot and 10 percent have tried cocaine.

Garr also pointed out a decrease in the use of all types of drugs except cocaine. He attributes this fact to President Reagan's ever-changing drug policy. "Reagan's policy makes it harder to smuggle bulky and easily detectable drugs such as pot," he said, "and more profitable to smuggle drugs such as cocaine.

concedes Garr College's need for a drug policy. "Without an effective policy there is no insurance policy," he explained. Yet, he feels the college is somewhat paternalistic in its

You can't do anything for a person unless he wants it done for himself," Dr. Garr

## Jodi Kest brings hope to Wilkes

by Karen Natishan

This year, the members of the women's basketball team have a ray of hope for a much needed successful season. Her name

Kest, who replaced Nancy Roberts as head coach of the women's basketball team, as a great deal to offer the team in the way f experience. The 1984 graduate of Slippery Rock University was a four year etter-winner, twice named All-ECAC and All-Conference, and a division II All-Americain selection. She was also the all-time leading scorer and rebounder at

There is no doubt that the women's team has had its problems in recent years and this is one of the reasons Kest came to Wilkes. "This is the most competitive division III conference in the country and it is a challenge to try and rebuild a program that hasn't been very successful the past few seasons," Kest stated.

When asked about the goals for the 1986-87 year, Kest explained that they have to be realistic. Without yet knowing what talent she has to work with, she is hoping for at least a 500 season and to be competitive within the conference. "But the team will decide that," she added.

Kest isn't concerned only about her players' performance on the court, however. What they do in the classroom means just as much to her. Every week Kest requires each of the girls to meet with her to discuss how they are doing in each of their classes.

Also, during the course of the semester, she sends out progress reports to the girls' professors to be sure they are keeping up with their studies. She said she realizes the girls won't make a living playing basketball so she wants to do all she can to make sure they're getting the education they came here for.

## Hayes, Schmidt powerful punch

by Jim Pyrah

With all the media attention in Philadephia focused on Mike Schmidt and his MVP caliber year, not to mention his quest to reach the 500 home run mark, it is easy for one to overlook the strong, steady performance of Von

The tall, lanky first-baseman is quietly leading the Phillies with a 311 batting average. Hayes also sports some other impressive statistics. He leads the league in runs with 94 and doubles, 42. He is currently fourth in the National League with 170 hits and he is fifth in the RBI department with 85. Hayes is also tied with teammate Schmidt for third place in slugging percentage with .385. All this and he has hit 15 home runs.

This makes for a powerful punch in the Phillies lineup. You see Hayes bats third and Schmidt, of course, is fourth. All this may seem unimportant now that the races are sewn up, but, if the Phillies manage to put together a pitching staff, fans have reason to look forward to next

The Braves Rafael Ramirez has had a lock on one of the more dubious honors in the National League over the past five years. He has led all the league's shortstops in errors. This year, however, he is being challenged by Shawn Dunston of the Cubs. Dunston has 31 compared to Ramirez's modest 26

Did you know that the Astrodome has enough plumbing for 40,000 people to wash their hands simultaneously?

What happened to Ron Guidry this year? He has fallen from baseball "herodom" to a dismal 8-10 record with an equally awful 4.20 ERA.

## Bowling club

The Wilkes College Bowling Club was in action once again this week. For the men it was Len Witczak taking high series honors with 506. He is followed by Joe Botto 505, Howie Knorr 497, Jeff Morton 490, and Rick

Mary Consugar once again leads the ladies with a series of 498. She is followed by Karen Beretsky 409, Steph Stine 401, Lori Ott 400, and Kelly Furlong with a 397

Lucky Strikes lead the league with an overall record of 19-2. Following is a complete list of the division standings:

DIVICION A

-	DIVISION A		DIVISION B	
	Lucky Strikes Grim Reapers Ten Pin Taps Team Banzai W.A.S. Dego's Joe's Plumbing FMR	19-2 16-5 15-6 12-9 11-10 7-14 7-14 5-16	O.M. Tall Boys Hakky Pakk Dom Shiep's O-Spots Generals Upso Four Horsemen	17-4 17-4 14-7 14-7 9-12 6-15 4-17

Wilkes wins on the Ladies play 39 field, loses on the to a tie scoreboard

by Jim Pyrah

So close and yet so far. That was the case with the Wilkes College football team this past Saturday.

Head Coach Bill Unsworth was quoted in a local paper as saying "we were our own worst enemy today" in reference to his team's 14-7 loss to Lycoming College. Nothing could be closer to the truth.

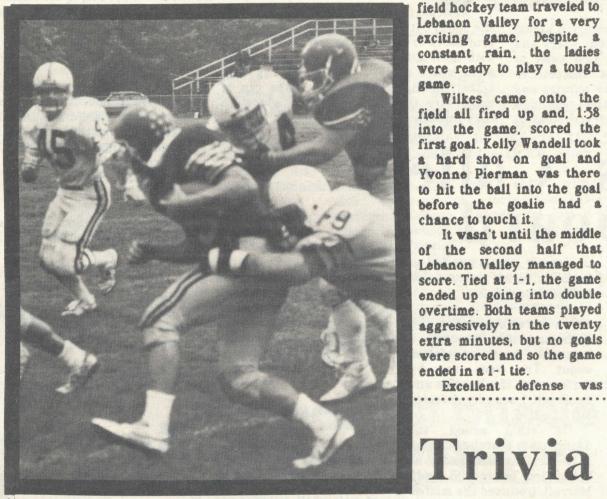

The now 2-1 Colonels came into the game breathing fire. In the first quarter, the Wilkes defense was everywhere, stuffing the Warriors play after play. Then the offense ignited. The Colonels put together an 11 play, 87 yard drive, capped off by a 34-yard Scarborough to Ulitchney touchdown pass. It appeared that the Colonels were on their way to victory.

Appearances can be deceiving. On their next possession, the Colonels failed to move the ball and were forced to punt. The low punt was fielded and returned to the one yard line. From there the Warriors wasted little time in putting their first score on the board. With 11:07 remaining in the half the score was tied

The Colonels got the break of the year early in the third quarter when a 27yard Lycoming field goal was nullified because the kicker was wearing hip pads.

That was about the only break the Colonels got all day. Lycoming scored their second, and winning, touchdown with 3:34 left in the third quarter.

The scoreboard didn't tell the whole story, however, as Wilkes dominated the statistics. The Colonels racked

Shown above is freshman runningback Dean Ambosie. Ambosie gained 95 yds rushing and added another 42

up 400 yards total offense (315 of them in the air), compared to Lycoming's 330. Wilkes also had 28 first downs compared to the Warriors' 20.

Perhaps the most telling statistic is this one: The Colonels were in scoring position three times in the first half. Once it was 1st and goal from the one yard line, and Wilkes failed to produce the points. When you can't punch the ball in from the one yard line in four tries, you know it's going to be a long afternoon.

Colonel running back Dean Ambosie had 95 yards

rushing and another 42 receiving. Ron Ulitchney caught 8 passes for 103 yards and Tony DiGrazia also caught eight for 88 yards. Scarborough threw 63 passes in the game completing 32 of them for 315 yards. He also tied the school record for career touchdown passes

The Colonels will have to put the loss behind them when they travel to Selingsgrove next Saturday to take on Susquehanna. The Crusaders defeated Lycoming in a tough battle earlier in : the season.
