Finals Examined

The tentative final examination schedule released earlier Dear Editor: this week by the Registrar's office is ridiculous!

aration period.

This is not enough time to re-learn fifteen weeks' worth of academics, while struggling to finish the tests and papers which teachers on Campus have tossed at the student at the last minute.

It may be asked, "Why not review over the vacation period immediately preceding finals?" This sounds great but such a feat would be rather difficult to accomplish side by side with working on term papers and studying for tests scheduled immediately after we return to school.

We have exactly one week's worth of classes between vacation and finals and it seems as though everything assigned is due then. Faculty members also have a habit, during the last week of classes, of cramming in all the work that was supposed to be accomplished during the first fourteen weeks of school, that they know cannot possibly be fitted in, but that they feel they'll try to get in anyway.

Why, we plaintively ask, do students have to be subjected to such a rigorous schedule when such a schedule could mean the difference between passing or failing a course, and, for seniors, between graduation in June and summer school?

According to the calendar, the faculty is given only six days between the last final and registration to correct the tests and papers which piled up during the semester, grade the final exams, compute the averages, and turn in the semester marks

Why, we again plaintively ask, cannot finals begin the Wednesday after the end of classes and continue at least undents would, therefore, have four days to prepare for finals with a weekend in between during which to study.

Admittedly, such a schedule would automatically entail pushing everything on the calendar up at least one week, but we feel that, were students given a choice of the present system at the sacrifice of their grades or our proposal, the latter would win. An additional week of school in May would not make much difference to most students; we are finished with classes before most other institutions anyway.

Another criticism of the tentative schedule is necessary. During the first three days of testing there are twice as many survey course finals offered as there are during the last three days. This means that underclassman finals are lumped together in one time period as are the advanced finals.

One senior has complained, and, we feel, legitimately, that she has four finals scheduled for the same day-three of them at the same time. Is there no justice in this world?

We pity the teachers who have to arrange and compose make-up finals because of scheduling conflicts. If finals were BASKETBALL, DREW UNIVERSITY, TOMORROW. spread out over a longer period of time, this too could be SWIMMING, BLOOMSBURG STATE, TOMORROW. avoided.

The faculty should not be expected to waste its time making up more than one final for the same course. After all, they need all the time they have to correct all those last-minute papers and tests, not to mention finals, providing, of course, that they do correct the finals.

In past years, finals were always extended over a tenday period — why the change? Though it is now too late to c'hange this semester's schedule, let us hope that this mistake can be avoided in the future.

A. Questionnaire

Ask the students what their views and ideas are as to an ideal Homecoming Dinner-Dance; what music is their preference; what cuising they desire; and would they attend the affair were it made better?

B. Consult Clubs and Dorms

Through the Council of Club Presidents and I.D.C. appeal to the officers to get suggestions and several suggestions opinions from their constituents which could be voiced by Student Government.

3. URGE INCREASED PARTICIPA-TION

Make Homecoming an event planned and run by the whole College. Include dorms and clubs in the planning and preparation of the dinner dance. For example, let some dorms or clubs take charge of making decorations or making souvenirs, or even choosing a location. Let the dorms and clubs do much of the work under the coordination of the Student Government Homecoming Committee. Basically, the principle should be: IF THE STU-DENTS WON'T COME TO THE DINNER DANCE, THEN BRING THE DINNER DANCE TO THE STUDENTS!

4. ENGAGE THE BEACON

Have the Beacon follow up the Homecoming Dinner-Dance with a "Big-Spread" issue of pictures of issue of pictures of the event. Show skeptical students how good the affair really was and what a great time they missed.

STUDENT A: "Food at the dinner dances in past years was terrible. I'm not paying \$8 for cold cuts.'

SUGGESTION: This year rumor has it that the food was good - a sign of a better time than in past years. Despite the fact that the food was delicious, perhaps a step further for future years would be the selection of a "minor theme" for Homecoming. Accent on a different cuisine each year. For example: Try Hawaiian! Serve part of the menu in Hawaiian fashion-a barbecue or pig-roast, pineapples and fruit, etc. Nothing exotic, extreme, or expensive, but just enough for effect. Let the reflect the minor decorations theme too.

STUDENT B: "The 12-piece band was rotten—they were OK to listen to . . . but for dancing . . . (use your own imagination).

SUGGESTION: Rather than employing an orchestra, maybe the following format would lend itself to better entertainment:

- 1. Quiet dinner and cocktail music. All that is required here is organ music or piped-in stereo. The music here provides only a pleasant background to which no one is particularly attentive.
- 2. Book a floor show, preferably a good comedian who can put on several shows throughout the course of the evening.
- 3. Provide dance music later on. preferably a band that plays a variety or a rock band, depending on what the students would

prefer. For effect, have the dance band alternate with the comedian.

STUDENT C: "I won't know anybody there, I'd rather a smaller affair with my friends."

SUGGESTION: Allow clubs and dorms to reserve sections of the seating where members can enjoy the affair together. To engender a better turnout of clubs and dorms perhaps the presentation of the Homecoming display trophies could be saved until the dinner dance. Could there be anything more prestigious than for a club or dorm to display their winning trophy at their table? Having worked for weeks on a project, students would look forward to the presentation of the awards at the dinner dance.

Thus, to reiterate a point, SOME POLICY INEVITABLY HAS TO BE UNDERTAKEN in order to put over a successful Homecoming Dinner-Dance and any other of the affairs sponsored by the Student Government of the College. "IRON HAND" policy is not the proper means nor is it the only means. I believe that the suggestions just presented are in the vein of a more effective approach to the problem on hand. I would appreciate the careful consideration of the members of Student Government to these suggestions, and I would be glad to dis-cuss or clarify any of the ideas mentioned within this proposal with anyone interested.

Dr. Rosenberg has also served in the field of minimum wages; he was chosen in Pennsylvania as both a member and chairman of the state minimum wage committee. Also, both in February and November of 1968, he spent time in Puerto Rico where he again worked in the field of setting minimum wages for American concerns located there.

After World War II, Dr. Rosenberg worked in U.N.R.R.A., the United Nations Relief and Rehabilitation Administration, where he held the position of economist. Here he was involved in deciding the needs of the War victims in North Africa and Europe. In Italy, France, and Egypt, Dr. Rosenberg, along with other U.N.R.R.A. workers, helped to determine the food, clothing, and shelter requirements of those persons left stranded by the horrors of World War II. Dr. Rosenberg found this rewarding not only because of its obvious beneficial effects but also because it gave him a chance to work with people from all over the world in the rehabilitation of those destitute remnants of the War.

Previous to teaching at Wilkes, Dr. Rosenberg taught at Hampton Institute in Hampton, Virginia. This College faculty was comprised of about fifty per cent white and fifty per cent black teachers. The student body, however, was nearly entirely Negro. He has also spent some time studying at Columbia

> Fundamentals led the way to the thrilling win over the Blue Bombers from Ithaca. The locals made few mistakes and converted 19 of 23 foul attempts to ice the victory. Bo Ryan, Wally Umbach, and Reimel forced the Ithacans into numerous errors and virtually dominated floor play. Four of the six men seeing action hit for double figures. Kemp and Umbach led the scoring parade with 17 markers each while Ryan chipped in for 14 and Reimel hit for 13.

The matmen of Coach John Reese opened their 1968-69 campaign on a successful note last Saturday afternoon when they swept eight individual championships and walked away with their first quadrangular victory. The Colonels amassed 97 points in the two-round competition while Buffalo University finished with 49 counters, host Oneonta garnered 47 points for a third place finish, while Montclair (N.J.) State totaled 41. The point totals were determined on the basis of ten points for a first place finish, seven for a second, four points for third and two for the final position.

The Colonels took to the road for the second consecutive time Tuesday for an important match with Kutztown State College. Coach Reese had the following comment in regards to the Bears, "Kutztown,

Coach Reese was well pleased this year, is a much better squad. is suffering the after-effects of a bad cold, and Ron Fritts has also contracted the flu.) These illnesses Results of the quadrangular meet. forced the mat mentor into the following line-up changes: Billy Harris will substitute for the ailing Marfia at 130-pounds, Ralph Tewksbury will move into the 137-slot, with Kaschenbach and Denny Verzera moving nup a notch to 145 and 152-pound classes respectively.

> The Colonels' first big test will occur before the home fans Monday evening when the Indians of Springfield (Mass.) College invade the Wilkes-Barre area. The Indians are one of only two teams which inflicted a loss on the locals last year. The visitors managed a 16-15 thriller before the 1967 holiday recess. Coach Reese expressed doubt concerning the important encounter. 'If we aren't at full strength physically, they're going to be real tough. They'll be coming in here right from a match with Navy (Saturday) and then face East Stroudsburg the next day. Yes, they'll definitely be tough - this one will be one of the biggest of the year." Reese then went on to Springfield, Hofstra, East Stroudsburg, and New York Maritime as the toughest matches on the wrestling card this year, but quickly emphasized "no match will be a run-away."

It is interesting to note that the Wilkes head-coach and athletic director has not discarded his superstitious mannerisms of previous mat seasons. He will wear the same attire to every match - in fact, he claims his socks are 21 years old.
