Security Chief wins award

Cookus recognized for Operation Alert

By Brad Hays
Beacon Staff Writer

Wilkes University's Director Of Security, Gerald Cookus, has received the Professional Achievement/Special Recognition Award from the Northeast College and Universities Security Association. The award was given in June at Syracuse University.

The Professional Achievement/Special Recognition Award is, "awarded to a person nominated by an institutional member, who or which has developed and implemented a concept, procedure, or practice in the field or campus safety and security from which the community or institutions will benefit from, and which other campuses may be encouraged to adopt."

Cookus received the award for his implementation of "Operation Alert", a special security system.

"Operation Alert" is a small battery operated alarm which is activated by a switch. It can also be activated by separating the carrying strap from the unit. It also has a small light that can be used to startle a would-be attacker. The alarm is a high pitched siren that can be heard from a considerable distance. Besides acting as a safety alarm, it can also be used as a room alarm when it is con-

nected to the inside of a door.

Wilkes University was the first school to use the "Operation Alert", which is now used at twenty-six different colleges and universities, and is also used at hospitals.

Cookus says he only knows of two cases in Wilkes-Barre in which Operation Alert has been used successfully. The first case was in Public Square, when a woman was approached by two individuals. The woman became suspicious, and she set off the alarm. When the alarm was set off, the two individuals fled.

The second incident was on South Franklin Street when a woman was walking up the street, and a man in an orange

jacket crossed the street, and approached her. The woman became suspicious and pressed the alarm. When the alarm was pressed, the man ran away.

Cookus said that a lot of students use the Operation Alert as a door alarm successfully.

Cookus said that it was good for him and Wilkes University to get the award because it gives recognition to the school. "Many top schools in the East, such as Yale and Rutgers were nominated, but didn't get the award."

Cookus was appointed Director of Security at Wilkes University in 1990. Cookus served as the Wilkes-Barre Police Department's crime prevention officer for twenty-nine years.

Speech and Debate Team tops 1300 awards

The Wilkes University Speech and Debate Union recently accomplished a feat unparalleled by any other organization, scholastic or athletic, in the entire Wyoming Valley.

With a third place overall team award at the College Forensic Association's (CFA) Fall Tournament on October 17 and 18, the team claimed its 1300th award since Dr. Bradford Kinney began coaching the Union in 1973.

"This award is extra special for us because it's a team trophy, rather than an individual speaker award," said junior Lynn Krutz, a member of the team.

Kinney, chair of the Communications Department and, as senior Holly Evans describes, "the driving force behind the team..." came to Wilkes in 1973 after teaching at Florida Southern College and Appalachian State College in North Carolina. He quickly began rebuilding the society back to the stature the Union once enjoyed in the 1950s when the team was referred to as "Little Wilkes, the Giant Killers."

"Dr. Kinney is the one who gets us organized. Most of all, he believes in every one on the team, even when we aren't so successful," continues Evans.

This year alone, the eight person team has already garnered 26 awards in just four competitions.

Considering the small membership numbers the Union works with, reaching the milestone 1300 awards is something of an accomplishment.

"For our small numbers, we have consistently broken in the top speaker categories, much to the chagrin of other teams on the forensic circuit," commented Union captain Al Mueller, who has amassed an amazing 90 awards on his own since he joined the team in 1989.

The Debate Union has an impressive forensic, and incidentally, academic, history behind its newest accolade.

In recent years, the team has been recognized for its accomplishments by State Senator Charles Lemmond, Jr., State Representative Phyllis Mundy, and United States Congressional Representative Paul Kanjorski.

In 1991, the Debate Union was 13th in the nation after competing in the National Pi Kappa Delta Honorary Forensic Society's Speech and Debate Tournament in West Long Branch, New Jersey. The team was also ranked first in the nation in the National Discussion Competition and won first (See Debate, Page 3)

SG hears Nursing Student Organization fund request

BY MARLENE MATOSKY
Beacon Staff Writer

The Student Government meeting on October 28 featured a first reading of a fund request from the Nursing Students Organization (NSO), as well as several committee reports.

The NSO asked SG for \$600 for their four officers to go to the Student Nurses Organization of Pennsylvania meeting. The meeting provides the nurses with ideas for future events, including community service projects and fund raisers. The meeting also helps the nurses maintain a professional image.

SG will vote on the request at their next meeting.

The Commuter Council (CC) is sponsoring a bus trip to New York City on Wednesday, November 25. The cost is \$4 one way, \$8 round trip. Tickets are being sold from 11 a.m. to 1 p.m. each day in Stark Lobby. Also, parking permit applica-

tions for the spring semester are available in Stark Lobby or at the CC office.

The Student Community Service Council will hold a dinner on November 7 at 6 p.m. in the Marts Center, for those who participated in Into The Streets, that day.

There will be a talent show

on November 12 at 8 p.m. in the Center for the Performing Arts. The \$1 admission charge will go to the United Way. Prizes will be awarded for the best acts.

Freshman elections were held on October 29. November 4 will be the first time the freshman will be attending the SG meeting.

WHAT'S GOING ON...

On Thursday, Nov. 5, at 6:30 p.m. the Osterhout Free Library will present certified **Master Hypnotist** Frederick G. Sam. The event is free, but seating is limited. Pre-register by calling 823-0156, Extension 15, or stop by the Information Desk at the library for more information.

Applications are now being accepted for the annual **Miss Pennsylvania USA Pageant**, to be staged in Monroeville, Pennsylvania. The three-day event will be presented in the Grand Ballroom of the Palace Inn on March 12, 13, and 14, 1993. Entrants must be at least 18 years of age and under 27 years of age as of Feb. 1, 1994, never married, and a resident of Pennsylvania for at least six months. College dorm students are eligible. For more information, phone (412)225-5343.

A **Christian Bible study** is held every Tuesday at 11:00 a.m. in SLC 209. The

Gospel of Mark is this semester's topic.

A **chess club** is forming for men and women interested on and off campus. Serious chess players can call Paul at 825-4405 after 6 p.m.

Scranton Community Concerts has announced that **tickets for the 1992/93 season** are available. Ticket subscriptions are \$40 for students and \$90 for adults. Tickets for individual concerts are \$15 for students and \$30 for adults. For more information call Mary Lou Miller at 342-4137.

The **Manuscript Society** meets every Thursday at noon on the third floor of Chase Hall. Submissions can be brought to the *Manuscript* office, or left with the Literature and Language Department secretary, on the second floor of Kirby Hall. All submissions must have your name, address, and phone number on the back. Keep a copy of your submissions, as they will be returned only by request.

Playboy magazine is accepting entries for its eighth annual **Playboy College Fiction Contest**. Entries will be accepted from any registered undergraduate or graduate college stu-

dent from now until Jan. 1, 1993. Contact Mark Healy at (212)-688-3030 for more information.

Student Government will be holding its annual **Open Forum** on Tuesday, Nov. 10th at 8:00 p.m. in the CPA. The **Open Forum** allows students to voice questions, complaints and concerns they have about the University. This event has kept the lines of communication open between administration and students. Panelists include President Breiseth, security, bookstore personnel, Morrison management, and many others.

The Wilkes University chapter of **Phi Alpha Theta** is holding a discussion called "**America 2000**," on Thursday, Nov. 12th at 7:30 p.m. in the Darte Center, room 101. The discussion will focus on America since the Cold War. Dr. Cox and Dr. Rodechko will be the speakers for this event.

The **Accounting and Business Club** will hold their **Fall luncheon** on Tuesday, Nov. 17th at 11:00 a.m. in the Marts Center, room 214. Reservations can be made with Professor Loftus, ext. 4703 or Professor Latshaw, ext.

4723 by Wednesday, Nov. 11th.

Now is the time to get the competitive edge! Apply for an **Internship or Co-op**, you will obtain academic credit, professional experience and clarify your career goals. Contact Carol Bosack, ext. 4645.

GREEKS & CLUBS RAISE A CO \$1,000.00 IN JUST ONE WEEK PLUS \$1000 FOR THE MEMBER WHO CALLS AND A FREE HEADPHONE RADIO just for calling 932-0528, Ext. 65.

INTERNSHIPS FOR MAJORS IN ACCOUNTING AND COMPUTER SCIENCE

The Commonwealth of Pennsylvania is accepting applications for Computer Systems Internships and Accounting Interns.

Benefits:

- Competitive Salary
- Possible College Credit
- Valuable Experience
- Eligibility for placement into full time position after graduation

Qualifications:

Juniors enrolled in bachelor's degree program in accounting and Sophomores enrolled in a bachelor's degree program in computer science are encouraged to apply. PA residency is required.

How To Apply:

For application materials contact your College Placement Office or

Steven Lazur
College Relations Coordinator
State Civil Service Commission
P.O. Box 569
Harrisburg, PA 17108
(717) 787-6127

Applications must be submitted postmarked on or before December 18, 1992.

(Debate from page 1)

place overall in the first annual Pennsylvania State Individual Events Tournament. For the eighth consecutive time since 1984, the Wilkes Debate Union captured first place in the local Women's Christian Temperance Union's Oratorical Competition.

Last season marked the second best season in the 18 year history of the Union, with the team winning 74 individual and team awards, just two awards shy of the record set back in 1984.

Mueller was selected to attend the 1992 Interstates Oratorical Competition in Austin, Texas, a first in the history of the Wilkes debate program. Over 100 years old, the competition has been attended in the past by such American figures as William Jennings Bryan, the famous Populist candidate for United States President.

With all of the traveling on the debate circuit, "Kinney's Kids" had the highest per capita grade point average of any Wilkes' organization during the 1990-1992 academic years. As well, the team has had one of its members, Al Mueller, has served as Student Lieutenant Governor of the regional branch of Pi Kappa Delta the past two years.

This year's powerhouse contingency is comprised of Mueller, Krutz, Evans, Jenni-

fer Stackhouse, Karen Anderson, Jennifer Barkas, Michael Butchko, and LynnMarie Rosencrance.

The team looks to continue its winning tradition this weekend when Union members compete at the Mad Hatter Tournament hosted by Bloomsburg University.

According to Kinney, the team can not rest on its laurels just yet. "Some of the top teams in the country will be at Bloomsburg. There is new pressure for the team to do well."

What goal does the Union have in mind now that they have reached the milestone 1300 awards?

"This is going to be a record-breaking year," predicts Mueller. "Standing to fall is . . . the total number of team awards won in a season . . ."

If the Union's achievements thus far into the season are any indication, this year looks to be the year that the team surpasses the 1984 record of 74 awards in one season.

But the most amazing statistic about this team is not a number or a winning record, it's simply the fact that the group works and competes as a team. In a time when teamwork takes a back seat to individual gains, it is refreshing to see the individuals on the Wilkes University Speech and Debate Union winning as a team.

L.G.B.A. members discuss roles and views

Gay people exist on this campus.

There's most likely one (or more) in each of your classes, possibly even your teacher. Statistically, ten percent of society is known to be gay. But how does this supposed "ten percent" deal with balancing gay life and Wilkes life?

At a recent meeting of the Lesbian, Gay, and Bisexual Association meeting, questions were asked of the members in attendance as to what they felt about being gay, how their classmates might look at them, and what role the LGBA plays in their lives. A sample of the responses follow.

What does it mean to you to be gay?

- It's just a part of me, but not all of me.
 - That I am able to enjoy life in any way I would like. To spend my life with whomever I choose, and to love as I wish.
 - It means being myself.
 - To me, being gay means that I feel attraction to people of the same sex, part of the attraction is sexual, but more of it is emotional.
 - I think of being gay as being special, because a lot of people who shaped the way society is today were gay, such as Freud, Shakespeare, and Walt Whitman. Also, I feel that being homosexual helps me be a more open-minded person than most.
 - Being gay means simply that I am attracted to members of my own sex. It means simply that I am a little different.
 - I'm the same except for the fact that I am sexually attracted to men. And the other difference is not because of me or my actions, but usually how society looks at me. I am comfortable with being gay, but society forces me to deal with it more than I usually would.
 - It's what I am. It's my life. It's as natural to me as breathing, I can't imagine not being gay.
 - Being gay means having a life where you always wonder what people are thinking of you. If someone doesn't like me, I wonder if it's because they know I'm gay. Life seems to be a constant living in the closet, although the door is open. I feel I can't do some things, like holding hands in public, etc., because of society's reaction.
- ### How do you feel society perceives homosexuality?
- Society's gut reaction is usually very negative, they close their minds.
 - As a wrong or evil thing that only happens to bad people.
 - I think it really depends on how you look at it. I think that society in general accepts it, but what is publicized is the hatred of gays. Bad things are what really get attention.
 - The spectrum runs from the farthest-right violence towards gays to the gay or lesbian person's ultimate acceptance of herself/himself. We are, after all, members of the society doing the "perceiving."
 - I think that most individuals accept it, but when

put in certain situations, they feel they must conform to type.

- Society perceives homosexuality as twisted and purely sexual. It fails to see the love, caring and emotions that are also involved, just as with heterosexuality. It cannot, for the most part, see past its own prejudices and fears.
 - They feel it is a choice, that I one day just decided "Girls were nice, but I think that guys are cuter," which is not the case. They feel we are deviants who like flaunting the fact that we're gay, when all we want is equality.
 - Society around here: evil, perverted, sick, warped, embarrassing, scary. Society elsewhere: They're gradually coming to see it as a part of life, as just a normal variation in people. Hopefully, the valley will eventually catch up.
 - The older generation denied it exists, or is anti-gay. Younger people are more open, but because of the many influences of religion, parents, etc., they seem to not be open. It takes a lot of courage and self-examination to realize you can be friends with gays and not be gay. Yet, much of society may perceive you that way anyhow. Society is still pussy-footing this issue, but they have been slowly becoming more accepting.
- ### What do you get out of being a member of the LGBA?
- A better understanding of being more "active" and learning about my civil rights and meeting people.
 - Friendship, support.
 - I've made a lot of good friends through the LGBA. It makes me feel that we may actually be able to make a difference in the world.
 - I get a feeling of satisfaction. We provide a setting in which being gay is not an issue which puts people at risk. Here, being gay or lesbian is a given for the majority of people. My freshman year (so very long ago) I wished there would have been such a thing.
 - I was a little apprehensive at first, because I didn't know what to expect. Once I became a member, I realized that we are all here to help each other grow socially, as well as psychologically. I can only say "Thank God for the LGBA."
 - The LGBA has helped me cope with my coming out, and helped me feel more comfortable with myself. It has let me know that I am not alone, both here at Wilkes and the valley, and even the world. I've also made a number of important friendships, which I hope to continue well past the time I spend here at Wilkes.
 - Just being around people that I can be myself with 100 percent. Normally, I am me, but always keeping my guard up. It's a place where I truly feel among peers. I don't know where I'd be if the LGBA wasn't here. As you might imagine, there isn't much of a local gay scene.
 - The ability to be who I am without hiding it. It helped me come out at the University.

Clinton Sweeps Election

Now that the election is over, many people have begun to make predictions about whether or not our next president of the United States will live up to the expectations of the people. Republicans and Democrats alike seem to be anxiously awaiting for the "fumbles" or the magnificently executed deliberations of Bill Clinton.

This is America.

The land where all people are given the opportunity to voice their opinions openly and freely. The land where all people can take an active part in their governments political process. The land "where everyone counts and everyone is a part of America's family," said Bill Clinton in his acceptance speech late Tuesday night.

It has been some twenty-odd years or so that our Commander in Chief has uttered words like this and seemed to have meant them. This election was one of the most important elections in many of our lifetimes. America is in need of a change.

Changes in its own domestic relations, not just economically, but a change for people.

People is what makes the world go 'round, not economy. There would be no economy without people. America has been devastated by the effects and defects of the soon to ending Reaganomic era, it's time for a change.

America has finally recognized this fact, the results in the electoral vote, as well as the popular vote tell us that.

Clinton said, "Let's reunite our already United States." "Together we can do it, a partnership for a new country."

Advice for Graduating Seniors

Seniors it's that time for you to register for the last time, but are you sure you have all the courses and credits you need?

The Registrar's office is finding that many students who expect to graduate in May are lacking writing intensive and core studies courses. Are you one of these students? It is possible for you to find out by seeing your advisor. They are available to help you in every possible way. Go to see them now if you have not done so already.

The key to you successfully going through the graduation process is by getting your graduation clearance sheet to check for any holes in the courses you've already taken and in your curriculum's graduation requirements. Seniors this year will be the first to graduate under the new core requirements, so some confusion is expected. It is up to you to make sure you are on the right track though. See your advisor, they may be

able to give you some good sound advice.

The Scent In the Wind

by Al Mueller

People in our society are complaining about how the media are trying to do their thinking for them, and, given the Editor's penchant for arguments lacking substance and validity, it is not hard to see why people are complaining. However, if Ms. Breese really wants to hear about local Democrats, as she implies in her column of October 29, this columnist is more than willing to oblige her.

At the top of the list is Representative Paul Kanjorski and his panacea, the Earth Conservancy. Earth Conservancy has been the catch word of the day at Wilkes, receiving support from even the top brass in the Administration. However, what most people don't realize is that the sole purpose of Earth Conservancy was to act as a pork barrel for Kanjorski, one that would allow him to bring \$20 million to Pennsylvania to pump into businesses at his discretion. His plan almost worked, but other Representatives tampered with his proposed rider to the bill. Now, Pennsylvania has to compete for the money. Consequently, Earth Conservancy has turned out to be an honest-to-goodness attempt to heal the environment. As one person in PR said, "But, Al, it has to start somewhere." True, but this ends-justifies-the-means philosophy helps no one. Moreover, it is scary to think that any rational individual can buy into this philosophy, and, to those that do think along these lines, one can only say, "Haven't you heard? The Middle Ages are over."

Speaking of the Middle Ages, let's turn our attention to Senator Ralph Musto, the manorial landlord himself. Everyone praises

this man's "overwhelming contributions" to education and to the area's elderly. However, you never hear about the nepotism of which he is guilty, having placed his relatives in every position conceivable, including the Assistant District Attorney's Office in Luzerne County. Yet, Ms. Breese is not alone in his attempts to establish his little fiefdom. Also going in business for themselves are people such as Rose Tucker, Frank Crossin and even State Representative Kevin Blaum.

Nevertheless, the reader should not fall into the trap of believing that all Luzerne County Democrats are corrupt. In fact, some of them deserve a great deal of praise, including, but not limited to, Representatives Phyllis Mundy and Tom Tighe, who have done excellent work supporting the people of their respective districts. Finally, it needs to be pointed out that the Republicans of the area are just as bad as the Democrats and perhaps even worse in some cases.

What's the point of all this? Well, children, the moral of today's story is this: it is not the province of a campus newspaper to present one side of an issue. Most of my columns have been designed to provide the students, faculty and staff of this campus with a different viewpoint. However, last week, Ms. Breese made it sound like every member of *The Beacon* was in favor of Bill Clinton. Well, I, for one, am not, but neither is the Editor nor any other member of the staff bothered to solicit my opinion. Furthermore, a campus newspaper should have the right to state to the reader which of the two major parties is the angel and which is the devil. That is each individual to decide for himself. So, remember...don't believe everything you read, especially if you read it in a newspaper.

(Club for Animal Rights, Vegetarianism and the Environment)

C.A.R.V.E. is a club for students dedicated to making their lives better, as well as the world around them. It is not mandatory that you be a vegetarian to join. The only requirement is a desire to open your mind to new things and to look at global and local issues from a new perspective.

The club meets every Thursday at 11 a.m. in SLC 380.

FEATURES

English department murdered in Kirby Hall

STEPHANIE KRAMER
Beacon Staff Writer

Something a little bit out of the ordinary occurred in Kirby Hall this past weekend, when members of the Wilkes University English Department faculty were involved in an execution: a literary execution, that is.

A large crowd came out on Friday evening to witness the second annual Halloween Execution. Sponsored by the English department, the event is usually a reading of various works with Halloween themes. Readers included faculty members Dr. Donald Bloom, Dr. Bonnie Bedford, Professor

Robert Ballentine and English Department Chairperson Dr. Patricia Heaman, as well as several students. Especially pleasing to the crowd was the contribution of Wilkes senior Greg Steuben, who read an original poem about a fictitious murder spree which featured members of the English departments as victims.

The Execution ran very smoothly, according to event co-chairpersons Heidi Hojnowski and Melanie O'Donnell, both of whom are senior English majors at Wilkes.

Hojnowski expressed delight at the "wonderful turnout, varied readings and a wonder-

ful response."

Said O'Donnell, "One comic, one harpoonist, and George Sand. What more could we ask for?" (the harpoon, incidentally, was a decorative contribution from Dr. J. Michael Lennon, who also read an excerpt from *Moby Dick*).

The audience's response to the execution was also very positive. The costumes, refreshments and decorations were all excellent.

To those who missed this year's Execution, don't make the same mistake next Halloween. It may come back to haunt you.

Many scary poems and stories were read at the Halloween Readings in Kirby Hall last Friday night.

Haunted house is a "Graveyard Smash"

BRAD HAYS
Beacon Staff Writer

"Welcome to the Evil Estate. This is my master William Bates, otherwise known as Master Bates. My master is no longer here because of people like you who came through that door nearly 400 years ago and cut off my master's head. His body parts are under that table that you are sitting on. Watch out! Don't let anything grab you."

For those students who went to Circle K's haunted house last week, these words should sound familiar. For those students who didn't, you missed a really scary time.

The tour of the Evil Estate began with an introduction which mentioned the former owner of the house and what became of him. According to legend, Master Bates owned the house until his head was cut off and his body parts were

hidden throughout the house. After the introduction of the house's history, the caretaker then called for his mistress, who made a dramatic entrance. The caretaker then told the mistress to lead the group on a tour of "some of the most horrifying rooms that you will ever see".

The first room that the mistress showed the group was a room which recreated a famous scene from the movie *Psycho*. In this room, there was a woman behind a shower curtain and a man who came up behind her and stabbed her. Then the murderer said, "I killed her for you, Mother!"

The mistress then took the group to the Rubber Room. This room had mattresses all along the floor and up against the walls. Suddenly, two mattresses came down, and two people who were covered with blood came out and lurched toward the group.

The next room had a coffin

Dressed as monsters, Circle K members hang-out in the coffin room while waiting for another tour group.

which contained a young woman. The woman looked dead, but, suddenly, she came to life and started screaming.

The Exorcist Room was next, in which an actual exorcism was being conducted. The group was then led down a

dark hall where various creatures jumped out from the walls.

The group was then led into the Mad Scientist's Room, where an experiment was taking place. The experiment involved taking blood from a donor and transferring it to a dead body in

order to have it rise from the dead. There was a cabinet in the corner of the room, from which the dead body leapt.

A seance took place in the next room. Three people were chanting the phrase "Rosemary" when, suddenly, someone rose from a couch that was behind the seance table. A creature then entered the room and exclaimed, "She's alive, and she's mine! Get Out! Get Out!"

The last room was the Mirror Room where various creatures leapt out of boxes wrapped in tin foil.

Overall, the haunted house was excellent. The caretaker and the mistress did a good job at performing their parts, as did the people in the various rooms. Most people seemed to enjoy the Evil Estate and said that it left them with an eerie feeling. As one visitor said, "I screamed my head off!"

AN EASY GUIDE TO THE MOST COMMON SEXUALLY TRANSMITTED DISEASES

DESCRIPTION

AIDS: Nature equipped you with an immune system to fight off infection and disease. The AIDS virus doesn't just attack your body, it destroys that immune system so that your body is more prone to develop diseases like pneumonia or cancer.

CHLAMYDIA: Chlamydia (an infection of the urinary tract and/or vagina) is the most common STD in U.S. This is because it has few or no symptoms. As a result, it's possible to have the disease for some time without knowing it.

GENITAL WARTS (HPV): More than 60 different kinds of Genital Warts are associated with the Human Papilloma virus. (HPV). Since they can be passed on easily, and in some cases have been linked to cancers of the reproductive system, you should have them treated as soon as possible. Females should have yearly Pap tests.

HERPES: Herpes is a virus which infects the surface of the skin and which can be a threat to babies born from infected mothers. Although symptoms can be treated, future outbreaks can be expected at times of stress.

SYPHILIS: This disease can affect any part of your body or your unborn child. Left untreated, it becomes a serious disease indeed: between 10 and 25 years after the initial infection, 25% of all sufferers can develop paralysis, heart diseases, severe brain damage... or even die.

GONORRHEA: Left untreated, Gonorrhea can cause sterility in men, pelvic inflammatory disease in women, and arthritis in both. It can also settle in the heart, brain, or spinal cord.

TRICHOMONIASIS: Trichomoniasis is a disease which causes inflammation of the vagina. Although Trichomoniasis primarily affects women, it can also be carried and spread by men.

SYMPTOMS

Swollen glands in neck, groin or armpit. Night sweats. Unexplained tiredness, and/or weight loss. Persistent diarrhea.

GENERAL SYMPTOMS

Unusual amount, odor, or color of discharge from penis, vagina, or rectum.

Burning or pain when urinating.

Burning or itching around vagina, tip of penis, or rectum.

Skin rash or sores on or around the sex organs or mouth.

Swollen glands.

Pain in lower abdomen.

TREATMENT

Symptoms can be treated, but no cure exists for the AIDS virus. At present time, once AIDS is established, 100% fatal.

Chlamydia can be cured with antibiotics from your doctor.

Even though warts can be removed with chemicals, cryotherapy (freezing treatment), the virus can stay with you for life.

Prescription drugs can treat the virus but Herpes cannot be cured.

In its early stages, Syphilis can be treated with antibiotics from your doctor. If you think you are infected, get a blood test immediately (this being the only way to diagnose Syphilis).

Antibiotics usually cure the disease if diagnosed early.

Trichomoniasis is cured with prescription drugs.

Murder Mystery unraveled in the SUB

BY BRIAN SMITH
Beacon Staff Writer

Have you ever felt like your life is one big soap opera? If not, you should have been at the Murder Mystery party presented by the Wilkes University Programming Board in the Student Union Building (SUB) on October 30.

The Murder Mystery party was filled with drugs, booze, blackmail, greed, pride, lots of sex, and of course murder! There was simply no end to the game, turmoil and surprises.

First, Dr. Kensington, played by David Norman of Top Hat Productions, explained to the audience that he was bringing his patient Tim Navy to the SUB to perform an experiment with a new drug.

The audience was invited to guess to what Tim thought was his birthday party. Actually, this spot was where Tim's

father was killed 25 years ago. The test drug was supposed to induce psychic powers which might allow Tim to see what happened.

The audience is also introduced to Tim's fiancée Susan who is a sexy, power-hungry drug dealer. Susan and the doctor despise each other because Susan does not like the way the doctor has a hold on Tim.

Next, we meet Susan's sister Amy played by Wilkes' student Amy Kahonowitz. Amy is also the doctor's assistant.

Sound good yet? Well to make things worse, Tim is having an affair with Amy because he can't get the satisfaction he wants from Susan, played by Holly Walder of Top Hat Productions.

Susan finds out and starts fighting with Amy. While having a vivid cat fight, Amy drops dead in Susan's arm.

Tim Navy, played by Charlie King, has a vision while under hypnosis.

Susan exclaims, "Damn.....I broke a nail!"

The body is carried out, the police are called, and the farce continues.

Next, Tim agrees to have a session where he is given Depanol, the test drug, and to be placed in a hypnotic state by Kensington. While in the trance, Tim has a vision of his

father being killed and consequently, strangles Doug Barnes played by Wilkes student Jason Delcampe.

So who killed Doug and Amy? Are you thoroughly confused?

Well so were the audience members! The audience was then given a chance to ask questions and then vote on who they

thought the killer was.

Of course, it was the dear doctor. He killed Amy by giving her Depanol because she was blackmailing him. He accidentally killed his nephew Barnes by giving him the Depanol. Barnes was then able to enter Tim's vision where he was strangled.

In the end, the evil villain was shot by Susan.

Those who had picked the doctor as the killer had their names drawn for prizes. Robin Rabbito and Melissa Duccashi won squirt guns. Stephanie Kramer, Andrew Glickman, and Tad Barnhart won T-shirts. Jeffrey Shedlock won the grand prize of \$50.

I think the real star of the show was audience member and vibrantly active Lakiesha Simpson, a freshman at Wilkes! Thanks for an entertaining evening, Lakiesha.

Percussion concert to be held at Dart

WILKES-BARRE- The Wilkes University Percussion Ensemble, directed by Robert A. Nowak, will present their first concert of the season on Friday, November 6 at 8 p.m. in the Dorothy Dickson Dart Center for the Performing Arts. The concert is free and open to the public.

The program begins with a work by William Douglas entitled "Rock Etude Number Seven." The next composition is Christopher Rouse's "Kumakumu," named after a Hawaiian God of War. The piece is a compulsive war dance. Another Rouse work, "Bonham," will follow. This composition is a nod to former Led Zepplin drummer John "Bonzo" Bonham.

Other works on the program, which features all of the

Wilkes Percussion Ensemble: Stanley Griffis, Daniel Moyer, Shawn Whitebread, Shawn Hart, and Keith Nichols.

percussion instruments, include pieces by Jared Spears, Shostakovich and Bizet Kabalevsky, among others. Among the soloists is sophomore Shawn Hart on the xylophone.

The Wilkes University Percussion Ensemble performs concerts each season throughout the Commonwealth of Pennsylvania. They have been

featured in programs at Percussion Arts conventions at both the state and international levels. Functioning as active recruiters for the University, the members of the ensemble perform at high schools in both Pennsylvania and New York each spring. They have also collaborated on several concerts with the Penn State University Percussion Ensemble.

Comedian Rob Weinstein will be appearing in Rumours

WILKES-BARRE—The Wilkes University Programming Board will present comedian Rob Weinstein in Rumours on Saturday, November 7 at 8 p.m. Weinstein has more than eight years of experience in stand-up comedy and has appeared throughout the East Coast and Canada. He has made numerous television ap-

pearances, including Comedy Central's *Short Attention Span Theatre*, Lifetime Network's *Great American TV Poll* and FOX's *The Reporters*.

For those who like to laugh, this is an event not to miss. His clever humor on contemporary topics makes his a show worth seeing.

Film Festival starts Sunday in the CPA

WILKES-BARRE- The Wilkes University Cultural Affairs Committee will host a screening of *Mystery Train* on Sunday, November 8 at 8 p.m. in the Dorothy Dickson Darte Center for the Performing Arts. Admission is free.

Directed by Jim Jarmusch, *Mystery Train* is a very funny and extremely inventive mythological landscape film set in the backwater sections of Memphis, the pop-culture Mecca where all roads lead to Elvis.

Three funny and insightful interlocking stories revolve around The King, a sleazy hotel.

Other films in the series include: *A Passage to India* on Sunday, February 7; *The Last Wave* on Tuesday, March 30; and *Montenegro* on Tuesday, April 13. Admission is to be free for all shows. All screenings begin at 8 p.m. in the Dorothy Dickson Darte Center for the Performing Arts.

Into the Streets

On Saturday, November 7, 1992, Wilkes University will again participate in Into The Streets, a nationwide program to introduce more college students to community service activities in an effort to challenge them to volunteer on a regular basis.

Over the past several months the Student Community Service Council, in conjunction with several other student organizations, worked to organize several volunteer projects for Into The Streets. The issues focused on this year include Housing, Hunger, Health, the Environment, Education, and Children.

Last year Wilkes University was one of 120 colleges and universities nationwide that participated in this all important program. The event drew over 200 student volunteers going out into the Wilkes-Barre community working on 12 different projects.

This year there are 14 projects taking place over a one week period with the majority offered on Saturday, November 7th. At 6:00 p.m. on Saturday there will be a Reflection Dinner held in room 214 of the Marts Center for all Into The Streets participants providing an opportunity to share volunteer experiences.

Magic leaves basketball for the second time

INGLEWOOD, Calif. (AP) ---- Because some people didn't want to play against him, Magic Johnson won't play again after all.

Johnson retired again Monday--this time for good, he said--mainly because his return prompted several NBA players to say they felt at risk by competing against someone who has the AIDS virus.

"It has become obvious that the various controversies surrounding my return are taking away from both basketball as a sport and the larger issue of living with the HIV virus for me and the many people affected," Johnson said in a statement.

After talking it over with his wife, Cookie, and his family, Johnson said, "I decided I will retire -- for good -- from the Lakers."

Dr. Michael Mellman, Johnson's personal physician and the Lakers' team doctor,

said Johnson was physically fit to play.

"This is not based on his doctor's advice," Mellman said. "It's his lifestyle decision."

Mellman repeated what other doctors have said all along--that there was practically no chance of contracting the virus from Johnson through basketball.

"It's infinitesimally small," he said. "We have no numbers that make any sense because we are talking about such a low-risk situation, according to the experts."

But that didn't convince some people.

Several NBA stars, including fellow Dream Team member Karl Malone, said they were concerned about playing with Johnson for health reasons.

One NBA general manager, speaking on the condition that he not be identified, was quoted in a

story published Sunday in *The New York Times* as saying that Johnson should step aside to avoid any controversy.

Malone was quoted in the story as saying, "Just because he came back doesn't mean nothing to me. It may be good for basketball, but you have to look far beyond that."

Malone added, "Look at the cuts and scratches I get now. All of a sudden, the last second of the game, and here comes Magic to the basket. It's the same as, what if I had the virus as a player and what if a Buck Williams or a Charles Barkley comes in?"

"It's a physical game and you do get kicked and scratched," Malone added. "I do have concerns, just like anybody would have. It's not a thing of kicking a man when he's down."

The 33 year-old had shocked the sports world last November 7 when he

announced his retirement after testing HIV positive.

A source close to Johnson speaking on the condition of anonymity, said the retirement was tied to the controversy surrounding the player's comeback, and not his health.

Another source familiar with the situation, who also declined to be identified, said Johnson "probably thought he would be above any kind of controversy because he's Magic. But he discovered that wasn't going to happen."

"I've come to realize that it simply isn't possible to return

to playing in the NBA and still continue to be involved in all the things I want to do," Johnson said. "Although my family has given me their support to return to the Lakers, I feel that it is more important to spend my time with them as well as continuing with HIV and AIDS education projects than

in the competitive world of the NBA."

First year Laker coach Randy Pfund said Johnson's agent, Lon Rosen, called him Sunday night with the news.

"I think everybody realized going in it might not have worked as perfectly as we would have wanted it to," Pfund said.

Rosen said Johnson's primary aim is to educate people about AIDS.

"His feeling was, if people were afraid to play against him, that could affect the outcome of the game, and Earvin didn't want that," he said.

Cheers & Jeers

From

Bob Simmons

MAGIC RETIRES AGAIN

In 1978, he was a freshman leading Michigan State to a 25-5 record and their first Big Ten title in 19 years.

June 25, 1979, the Los Angeles Lakers select him as their number one draft pick.

February 4, 1980, he becomes the first rookie to start in an NBA All-Star game since 1969.

May 16, 1980, he leads Lakers to NBA title.

April 1993, he leads the NBA in assists with 10.5 per game and breaks a club record with 829.

May 15, 1984, he sets an NBA play-off record with 24 assists.

March 13, 1986, he hands out his 5000th career assist.

February 5, 1987, his 10,000th point is recorded.

November 7, 1991, he announces his retirement at the age of 32 after testing positive for the HIV virus. He leaves pro basketball ranked first in career assists with 9,921 and second in career steals with 1,698.

August 8, 1992, he is a member of the gold medal-winning U.S. basketball team when they beat Croatia 117-85 at the Olympic Games in Barcelona.

September 29, 1992, he announces he will return to the Lakers and play a limited amount of games.

November 2, 1992, he announces his retirement in a statement issued by the Lakers.

There had been several people concerned about Magic returning to the competitive world of the NBA and their concerns did not fall on deaf ears.

Magic knew that people would be talking about him coming back to basketball, just like they did when he announced his retirement for the first time.

There were rumors that Magic contracted the HIV virus in a number of ways and now the rumors are flying around about why he decided to retire again.

Magic has publicly stated why he will not play basketball ever again; "the various controversies surrounding my return are taking away from both basketball as a sport and the larger issue of living with HIV for me and the many people affected."

Here is a man who has been playing basketball for a long time and simply because some people are unsure if he should be playing or not, he just walks away from his first love.

Basketball has been the man's life and now he walks away to please everyone else.

How many of us would be able to do something like that?

"It's a shame. He is such a great player. He has too much love for the game not to play the game the way it should be played," said Joe Kremmer, assistant men's basketball coach at Wilkes.

Joe Dudeck, a student-athlete at Vermont College and another long-time fan of Magic's, said, "I'm sad to see him go out this way, but he won't play the game half-hearted. Besides he has accomplished everything he has set out to do."

As for me, I am very sad to see him leave the game. He truly brought the game of basketball to the next level and he doesn't deserve what has happened to him. However, he hasn't complained and through that he has taught us a great lesson.

Karl Malone, who was a member of the Dream Team, has been the most outspoken critic of Magic's return.

It makes you wonder what kind of person Malone really is. He sure wasn't complaining when Magic was giving him the ball in Barcelona.

Thanks Magic for all those wonderful memories.

Booters get ready for ECAC

MISSIE CHINCHAR
Beacon Asst. Sports Editor

The men's soccer team completed its regular season on Saturday with a decisive 5-1 victory over Susquehanna. They ended post season play with a 11-4-3, 5-0-1 in the MAC NE.

In the previous match, the Colonels got a scare against Baptist Bible with a double overtime win 5-4.

Wilkes opened up the scoring at the 27:30 mark when freshman Brian Lisowski scored off a double assist from Paul Jellen and Mike Herb.

Baptist Bible came back and scored two goals before halftime.

Early in the second half, Jellen tied the match at two all off of another double assist from Chris Erb and Mike Seltzer.

But Baptist Bible turned up their offense a notch scoring two goals in two minutes.

Wilkes had to come back with a rally and Seltzer lead the attack scoring at the 63:32 mark off Herb's second assist of the day.

Herb did not stop there. He scored just five minutes later to tie the match at four apiece. Erb made the assist on the play.

The match was sent into

overtime, but it didn't take the booters long to score. Jellen scored the game winning goal just 46 seconds into overtime.

Jellen busted the length of the field beating three Baptist Bible defenders as well as the goal keeper.

In the final regular season match against Susquehanna, it was all Wilkes' offense. Once again Jellen scored in the opening minutes for the Colonels and the blue and gold never looked back.

Jellen had two goals, while Tom Nally, Seltzer and Herb each had one goal.

On Tuesday, the men lost to Messiah 6-0 in the MAC Northern Division title game.

The Falcons scored three goals in the first half and three in the second half to earn their crown.

"We had bad breakdowns in our defense and for the first time this season we gave up goals," said head coach Phil Wingert.

There was great crowd support for the booters, but the Colonels could not produce. "It was frustrating for the guys because we had the backing from the fans," said Wingert.

He went on to say, "I don't think that we as a team have advanced to the level of play that Messiah has and it showed."

The Colonels did advance

to the ECAC (Eastern Collegiate Athletic Conference) Division III South Region Championship Tournament that Wilkes will host this weekend at Ralston Field.

"Right now we have a rubber match between Frostburg," said Wingert.

On Saturday, Wilkes who is seeded first in the ECAC South, will play the fourth-seeded Frostburg at 11 a.m. For the past two years Wilkes has been a Frostburg in ECAC competition and has split them.

In the other match, Franklin and Marshall Dickinson, the third

fourth-seeded teams, will meet following the first match on Sunday at 1 p.m. at Ralston Field for the ECAC South crown.

"I feel that these are very exciting teams and we will be in the hunt for the title again," said Wingert.

The men's soccer team will host the ECAC's at Ralston Field Saturday and Sunday afternoons. There will be a fee for both students and adults. All are encouraged to attend.

Warmer days are ahead

BY TOM NALLY
Beacon Staff Writer

Seasons come and go, and if you don't stop to appreciate them, they will pass you by before you know it.

For the Wilkes field hockey team, their season and nature's seasons have a lot in common.

When the Ladies report to camp in mid-August, they are expected to grow and mature in the same manner as the summer season that is upon them.

This year, The Lady Colonels didn't disappoint anyone as they started the 1992 season red-hot, winning five of their first seven games.

In the blink of an eye, summer was gone and the Ladies found themselves in the fall season and in the heart

of their schedule. Like Autumn, the Lady Colonels came to fruition and began playing inspired hockey.

The Wilkes field hockey program found itself just where it wanted to be. With four games remaining, the Ladies moved as high as number six in the regional polls and reached the double-digit win plateau for the first time since 1979 as they posted a 10-4 record.

But as the progression from fall to winter points out, everything that lives, dies eventually. There were no more warm days for the Lady Colonels as winter arrived and its chill reflected their season's completion.

Losing their final four games, the Ladies dropped to 10-8 and out of any play-off chances. The realization that

the season was over was as harsh as winter's bitter cold.

We would like to congratulate the members of the 1992 field hockey team on a terrific season, and would like to thank Addy Malatesta for taking time out of her busy schedule to give us the information that made our job that much easier.

With no seniors graduating, and even back for the 1993 campaign, there is no doubt that the warmer days ahead.

INCLEMENT WEATHER POLICY

It shall be the responsibility of the Dean of Student Affairs to monitor weather conditions that might result in a decision to cancel classes or move to a compressed schedule. The Dean of Student Affairs shall consult with the Vice President for Academic Affairs or the General Officer on duty informing him of her recommendation.

In the event of inclement weather University officials will make every attempt to render a prompt decision regarding whether classes will be canceled. This information will be disseminated on campus and to the media and will indicate whether classes are canceled or if we are moving to a compressed schedule. Copies of the compressed schedule are available at the Registrar's Office, the Offices of the Deans of Student Affairs, and the Residence Life Office.

The University recognizes that our commuting students come from a wide geographic area and that road conditions can vary greatly. Common sense and good judgment should act as your guide as to whether you can get to the University, or whether you need to leave earlier than the announced closing time. We would anticipate that the Faculty will respect your judgment in these matters when you inform them upon your return to campus.

COMPRESSED SCHEDULE

Monday, Wednesday, Friday

Normal	Compressed
8:00 - 8:50 a.m.	10:00 - 10:40 a.m.
9:00 - 9:50 a.m.	10:45 - 11:25 a.m.

Colonels, Pioneers battle to gridlock on the gridiron

BY BILL PHILLIPS
Beacon Staff Writer

The Wilkes University football team battled Widener University to a 14-14 tie last Saturday. Despite injuries to key players, the Colonels were able to escape defeat.

Running back Jason Smith, who injured his thumb in last week's game, played with a cast on his hand this week. Smith was still able to run for over 100 yards in the game.

The Colonels played to a scoreless first half of play. However, Widener took the lead on a 19-yard touchdown run in the third quarter. The point-after attempt was good, giving the Pioneers a 7-0 edge. The Pioneers found the end zone again, this time on a one-yard touchdown run late in the third quarter. The point-after attempt was again good, increasing the score to 14-0.

In the fourth quarter, the Colonels bounced back. Boo Perry connected with Dan McClave on three passes in one drive. McClave's

receptions set up a one-yard run for a Colonels' touchdown by Smith, cutting the Pioneer lead to 14-6. The point-after attempt was unsuccessful, leaving the score at 14-6.

The Colonels went to the air attack again, with Perry connecting with Steve Endres, who caught six passes for 106 yards in the game. The Colonels' drive set up an eight-yard touchdown run by Smith, closing the lead to 14-12. Perry's pass was caught by McClave for the two-point conversion, which knotted the score at 14-14.

"Dan McClave made a great catch for the two-point conversion," commented head coach Joe DeMelfi.

Colonels' defensive back Ben McKeown intercepted a Pioneer pass. The Colonels were then forced to punt, but recovered a Pioneer fumble on the return. The fumble recovery by the Colonels set up a Wilkes field goal attempt which would have put them ahead, but the kick was unsuccessful.

Jason Smith keys Colonels success.

Neither team would cross the goal line again, resulting in a final score of 14-14.

"The tie game was disappointing. We did have several opportunities to score. Once we were down, we came right back and tied the game," said coach DeMelfi.

"We missed a lot of scoring chances. We had a chance to win the game. I thought we moved the ball well on the two scoring drives we did have," added Endres.

The Colonels take on Juniata College at Ralston Field this Saturday at 1:30

p.m. "Juniata is a tough team. We have two games left at home," coach DeMelfi.

Juniata is a tough team in the Middle Atlantic Conference (MAC). Indians stunned Lycoming College, a team expected to contend for the MAC title, coming away from the contest with a 14-14 tie.

"We have the ability to win. Talent-wise, we're up well with them [Juniata]," noted Endres.

"We've played well the past three weeks. We're ready for Juniata," said McClave, who caught six passes for 55 yards this week.

This week's contest should be quite exciting. Wilkes running back Jason Smith needs 10 yards to become a Wilkes rushing record holder with 57 yards to become the running back in Wilkes history to run for over 1,000 yards.

The Colonels' last games of the season were played at home.

Volleyball team posts best season in nine years

BY DAVID McCABE
Beacon Staff Writer

The Wilkes University women's volleyball team wrapped up the 1992 season with a 10-15 overall record, going 2-3 in the Middle Atlantic Conference (MAC).

Coach Maria Pizzella's squad finished their season a little disappointed, losing three out of their last five matches.

The first loss came at the hands of Allentown College. The Lady Colonels lost in three sets. Senior Sue Ketner had seven service points and seven kills, while freshman Jodi Depue added nine service points and six kills in the loss.

Next up for the Lady Colonels was Lycoming. The team came out ready to play and won easily in three straight sets (15-9, 15-4, 15-5). Senior Mary Jo Moses lead the way with 15 service points and four kills.

Lady Colonels set for action.

The team then played host to Scranton. Unfortunately, they came up short in the match, losing in three sets (7-15, 12-15, 10-15).

The Lady Colonels hit the road for their final two matches, a tri-match with Muhlenberg and Dickinson.

In the first match, against

the host team, Muhlenberg, Wilkes was defeated in two sets (7-15, 7-15), despite seven points from Moses.

The second match, against

Dickinson, belonging to Wilkes. The Lady Colonels were able to end their season on a high note, winning three straight sets (15-5, 15-4, 15-3).

Ketner had 13 service points and four aces in the win, while freshman Jodi O'Connor added 11 kills.

The women's record is the best record in Wilkes volleyball team history since 1983.

Although coach Pizzella was very pleased with the team's play throughout the year, it was a little disappointing that the team did not finish with a .500 record.

Consequently, Pizzella is optimistic for next season.

"We only graduated a few players, and we have a strong nucleus to work with next year," said Pizzella.
