Alumni Association Announces New Director

Samuel M. Davenport, '59

Samuel M. Davenport, '59, became the Director of Alumni Relations on August 1, 1967. A resident of 137 South Maple Ave., Kingston, Pennsylvania, Sam is the son of Dr. Samuel M. Davenport and the late Mrs. Davenport.

A graduate of Kingston High School, Sam attended Wyoming Seminary and received the Associate in Arts from Menlo College, Menlo Park, California. He was awarded the Bachelor of Science in secondary education by Wilkes in 1959 and received the Master of Science in secondary administration and supervision from Bucknell University in 1964.

Sam served with the U. S. Army as a dental assistant instructor from 1955-57 at Fort Sam Houston in Texas.

He had been associated with the junior high English department of the Lake-Lehman School District, Lehman, Pennsylvania, for the past nine years. He sponsored the Student Council of the junior-senior high school as well as the Key Club.

Sam was active in the PTA at Lake-Lehman and served as president of the Back Mountain Council of PTA for one year. He is chairman of the Commission on Missions of the Official Board at the Kingston Methodist Church. He has been active with Showcase Theatre since 1965 and is currently serving on the board as membership chairman.

Sam is a member of the board of directors of Dallas Kiwanis and serves as second vice-president, member of the board of directors, and chairman of community education for the Wyoming Valley Chapter of the National Foundation-March of Dimes.

ON BEING HUMAN

DR. EUGENE S. FARLEY • PRESIDENT • WILKES COLLEGE

ASSEMBLY ADDRESS TO STUDENTS — 1967

"And looking so, across the centuries and the millenia, toward the animal man of the past, one can see a faint light, like a patch of sunlight moving over the dark shadows of the forest floor. It shifts and widens, it winks out, it comes again, but it persists. It is the human spirit, the human soul, however transient, however faulty men may claim it to be. In its coming man had no part. It merely came, that curious light, and man, the animal, sought to be something no animal had been before. Cruel he might be, vengeful he might be, but there had entered into his nature a curious wistful gentleness and courage . . ."

— Loren Eiseley

It is that "faint light," that "curious wistful gentleness and courage," which has brought you here today.

You are here to improve yourself, and this is as it should be, but it is not enough. More is expected of you than self-improvement. Although friends have given generously to Wilkes College with the expectation that our students will improve themselves, these friends really hope for more. They expect that the graduates of Wilkes will contribute to the improvement and humanizing of our society.

It is not by accident that I associate social improvement with humanization. In this day we know that material progress is possible; we are just learning, however, that material progress cannot long continue if the well-being of man is neglected. Although we have long been aware of the benefit deriving to man from his technology; we are just now gaining an awareness that technology may also be detrimental to man. By polluting our environment, we damage our physical, mental, and spiritual health for man depends upon his environment and responds to it. Slowly we are learning that if technology is to serve us, we must not permit it to impair our environment. And because man is a part of his own environment, he must develop new relations with others in a world that is rendered increasingly complex by technological developments and population growth.

Whereas the associations of primitive man were limited to his clan, the associations of modern man are world-wide with a promise that exploration of space may make them universal. This enlargement of man's experience through modern technology threatens to overwhelm and de-humanize him. To avoid this de-humanization, man must enlarge his thinking, for failing to do so, he may yet be crushed by the technology that he has created. At a time when man is just beginning to discover and develop new meanings for life, this would be tragic.

Because of his growing knowledge of natural laws, man now dares to envision the future. Because of his growing knowledge and his ability to harness some of the great forces of nature, he even ventures to predict the conditions under which we will live in the twenty-first century. He dreams of improved transportation, of controlled climate, of a new type of urban community, and of prolonged life. And yet, in all of his projections, he forgets one thing—himself. He is afraid to envision what he will be, for when he does, he conceives of human automations devoid of qualities that give meaning to life. Because of this blindness, I venture to discuss with you the problems and the desirability of being human.

During the next fifty years—the productive years of your lives—mankind will face great prob-

lems. These will include over-population, the pollution of the environment, the threat of nuclear war, and the continued ideological conflicts which will be related to the old-fashioned power struggles of nations. I suspect, however, that these are but symptoms of man's greatest problems—uncertainty as to his own nature, his own capabilities, and his own humanity.

Over the years of his existence on this planet, man has gained increasing control of his environment. This he has done by discovering and using natural forces for his own purposes. Many thousands of years ago man discovered that fire could provide warmth to make life more tolerable. Then through the trials of experience he learned to preserve fire, and later he learned to make fire where and when he wished. After more thousands of years had passed, he invented the wheel and the boat. Thereafter he could move about more freely and his horizons broadened as his experiences with places and peoples were enlarged. And then, after more thousands of years, he developed crude machines to weave cloth and to mold pottery. And then once more, after a lapse of many centuries, he learned to operate his first machine by steam. And thus, after untold centuries, he began a new way of life.

In the scant two hundred years that have passed since the first machine was powered by steam, he has multiplied the powers he can release and has accelerated his use of these powers. In the past half century he has learned to distribute this power by pipe and wire, so that it is instantaneously available in every great center of population. And within the last quarter century he has developed electronic devices to operate his machines. These devices require great intelligence and skill for their operation and they do relieve man of the need for sustained physical effort. In two short centuries, he has moved successively from animal and water power to steam power, to electric power, and to the power of the atom. And in the past quarter century these powers have been successively transferred from machines controlled by men to machines controlled by transistors.

All of these changes are the product of human intelligence, but so is the increasing destructiveness of wars which in the last half century have destroyed more men and property than were destroyed in all previous wars. These contrasting results of applied intelligence suggest that unless man now directs his greatest powers of thought to the well-being of man, the machines that he has created may yet destroy their creator. Daily our news media report the mechanical marvels of the twenty-first century while they simultaneously reveal the tragedy in our cities, in Vietnam, and in the Near East.

Wilkes College FOOTBALL COLONELS 1967

1967 COLONELS TEAM PICTURE

1st Row: Lee Nemes, Tom Ambrosi, Jack Jarvella, Brin Yershol, Joe Roszko, Wayne Bloomberg, Roger Beatty, Al Peterfreund. 2nd Row: Bruce Gonsky, Mike Connolly, Joe Ksterba, Paul Kane, Paul Merrill, Joe Wiendi, Dan Mallory, Jay Holliday, Doug Forde. 3rd Row: Angelo Laverro, Bill Layden, Rick Simonson, Joe Frappoli, Dave Peterfreund, Joe Skerla, Vince Yermel, Jim Wolfe. 4th Row: Joe Kolm, Joe Zakowski, Charles Morgan, Larry Simon, Mike Babusich, Jerry Mullafrey, John Howe, John Chaump, Dave Schoonmaker. 5th Row: Phil Howe, Bill Dicks, Gary Hagel, Stan Zischke, Les Loveland, Jerry Moser, Tony Pierantoni, Fred Harkins. 6th Row: John Mazur, Ed Roman, Emil DiTullio, Barry Davenport, John Williamson, Ed Burke, George Conway, Gary Moore, Dave Krajewski. 7th Row: Gary Caccarelli, Larry Stricker, Mark Chamberlain, Alton Kenney, Dave Koschak, Bill Lasser, John Barasowski, Jim Loveland. 8th Row: Dave Mitchell, Bob Gonnaro, Aldo Emmott, Harry Rosover, Bernie Mallon, Mike Hurley. 9th Row: (Coaches) Roland Schmidt, Jonah Goobic, Jack Lukis, John Ewastation, Tom Trosko, Charles Adonizio.

Colonel Coaching Staff

(Left to right) Roland Schmidt, Jonah Goobic, Jack Lukis, Tom Trosko, John Ewastation, Charles Adonizio.

HEAD COACH ROLAND C. SCHMIDT

Coach Schmidt is in his sixth year at Wilkes and during that period has brought two Middle Atlantic Conference championships to the school. His 1966 team also won the initial Lambert Bowl awarded for supremacy in college division football in the East. A 1950 graduate of Coughlin High School in Wilkes-Barre, "Rollie" took part in football, wrestling and track. He attended Bloomsburg State College before serving two years in the Army and returned to the school in 1955 where he took part in football and track.

The head coach graduated from Bloomsburg in 1956 with a B.S. in education and served as a member of the Clarks Summit teaching staff for three years. In addition he was assistant football, head wrestling and assistant track coach at Clarks Summit. He taught at Kingston High School and was assistant football coach for three years. Coach Schmidt holds a master's degree from University of Scranton. He is married to the former Margaret Dombroski.

ASSISTANT COACH JONAH GOOBIC

A 1954 graduate of Plains High School, Coach Goobic played football, baseball and basketball in high school. He graduated from Bloomsburg State College in 1958 and took part in football and baseball at the college. He teaches at Northwest High School, Shickleshiny, and is first assistant and backfield coach at Wilkes. He is also assistant baseball coach. Coach Goobic is in his sixth year at Wilkes.

ASSISTANT COACH JOHN EWASTATION

John graduated from Coughlin High School, where he played football and then had three years of Marine Corps football at Camp Lejeune. He was the mascot of the King's College Inn during his time at the Wilkes-Barre college and was

captain of the football team in his senior year. A 1960 graduate of King's, he is head wrestling coach at Meyers High School, Wilkes-Barre, and was an assistant football coach at that school. Ewastation is married and has one daughter. He is defensive line coach for the Colonels.

ASSISTANT COACH CHARLES ADONIZIO

A 1964 graduate of Wilkes, "Chuck" played football at the University of Pittsburgh before transferring to Wilkes where he received his degree in business administration. He played football at St. John's High School in Pittston City and attended Fork Union Military Academy. A top football player at Wilkes, Adonizio is offensive line coach for the Colonels. He is married to the former Catherine Fahy and is associated in business with Addy Asphalt Company, Wilkes-Barre.

ASSISTANT COACH JOHN LUKIS

A graduate of Burlington High School, N.J., John played football and baseball in high school. He graduated from Springfield College, Mass., in 1964, where he played quarterback on the football team. Lukis will be an assistant coach in charge of quarterbacks. He is married to the former Betty Severi of Burlington, N.J.

ASSISTANT COACH THOMAS TROSKO

Tom was outstanding in football, baseball and basketball at Wilkes, receiving the Gallagher Award for football and the Outstanding Athletic Award for 1965. Trosko was captain of the football and basketball teams at Wilkes. A graduate of Plains Memorial High School, Trosko played football, baseball and basketball in high school. He is an assistant coach working with the defensive secondary and head scout for the Colonels.

Class of 1971 Begins March

Dean of Admissions, John Whitby, Gives Orientation Welcome

The Class of 1971 began their college career with orientation week from September 10 to September 16. The 600 incoming students were required to adhere to the orientation schedule so that they would be better prepared to make the transition from the directed work of the high school to the independent and more intensive work of the College.

The majority of the class members is from Northeastern Pennsylvania. Approximately 250 class members are listed as resident students. They include students from New York, New Jersey, Delaware, Maryland, Massachusetts, Connecticut, Ohio, Virginia, Illinois, Colorado, California, Florida, and the District of Columbia.

Students from Canada, Puerto Rico, Korea, Africa, Greece, China, and Japan are also members of the Class of 1971.

Dr. Farley welcomed the parents of the incoming students on September 10 in the gymnasium. The parents then met with Dean Ahlborn and Dean Ralston and ended the day at an informal reception on Chase Lawn with the faculty and administration. Over 1000 parents participated.

The full week of activities for the students began on Monday morning in the Center for the Performing Arts and ended on Saturday night with a dance at Ralston Field. John Whitby, Dean of Admissions, is shown above welcoming the new students at their opening session.

Wilkes College Sports Schedule 1967-68

Alumni and friends of
Wilkes are looking
forward to the 1967-68
athletic events of the
"Colonels." Coaches
John Reese, Roland
Schmidt, Ron Rainey,
and Jim Neddoff
head up the
coaching staff.

John Reese, Director of Athletics
and Wrestling Coach

FOOTBALL

Saturday, September 23	Upsala	Away	1:30 p.m.
Saturday, September 30	Moravian	Home	1:30 p.m.
Saturday, October 7	Delaware Valley (Parents' Day)	Home	2:00 p.m.
Saturday, October 14	Ursinus	Away	2:00 p.m.
Saturday, October 21	Drexel	Home	2:00 p.m.
Saturday, October 28	Haverford (Homecoming)	Home	2:00 p.m.
Saturday, November 4	Pennsylvania Military College	Away	1:30 p.m.
Saturday, November 11	Lebanon Valley	Away	1:30 p.m.

Special Note: All football games will be broadcast by WBRE Radio.

SOCCER

Saturday, September 23	Madison-FDU	Away	2:00 p.m.
Tuesday, September 26	Moravian	Home	3:30 p.m.
Saturday, September 30	Upsala	Home	10:00 a.m.
Saturday, October 7	Dickinson	Home	10:00 a.m.
Saturday, October 14	Lycoming	Away	10:30 a.m.
Wednesday, October 18	Muhlenberg	Home	3:30 p.m.
Saturday, October 21	Stevens	Away	2:30 p.m.
Tuesday, October 24	Philadelphia Textile	Home	3:30 p.m.
Friday, October 27	Wagner	Home	3:00 p.m.
Saturday, November 4	Hofstra	Away	2:00 p.m.
Wednesday, November 8	Harpur	Away	2:00 p.m.
Saturday, November 11	Susquehanna	Away	10:00 a.m.

BASKETBALL

Friday, December 1	Elizabethtown*	Home	8:15 p.m.
Saturday, December 2	Ithaca*	Away	8:15 p.m.
Wednesday, December 6	Lycoming*	Home	8:15 p.m.
Saturday, December 9	Madison-FDU*	Away	8:15 p.m.
Tuesday, December 12	Philadelphia Pharmacy	Away	8:00 p.m.
Thursday, December 14	Scranton	Home	8:15 p.m.
Saturday, December 16	Drew	Home	8:45 p.m.
Wednesday, January 3	Albright*	Away	8:30 p.m.
Saturday, January 6	Lebanon Valley*	Home	8:15 p.m.
Tuesday, January 9	Harpur	Away	8:00 p.m.
Thursday, January 11	Community College	Home	8:00 p.m.
Saturday, January 27	Delaware Valley	Home	8:30 p.m.
Monday, January 29	East Stroudsburg	Home	8:15 p.m.
Thursday, February 1	Rutgers (N.J.)*	Away	8:15 p.m.
Saturday, February 3	Juniata	Away	8:15 p.m.
Wednesday, February 7	Lycoming*	Away	8:15 p.m.
Saturday, February 10	Upsala	Home	9:00 p.m.
Monday, February 12	Wagner*	Home	8:15 p.m.
Thursday, February 15	Community College	Home	8:00 p.m.
Saturday, February 17	Moravian*	Away	6:30 p.m.
Monday, February 19	Susquehanna*	Away	8:00 p.m.
Wednesday, February 21	Scranton*	Away	8:15 p.m.
Saturday, February 24	Dickinson	Home	8:45 p.m.

* Also Junior Varsity

WRESTLING

Friday, December 1	Practice meet at West Point		
Saturday, December 9	Hartwick	Away	2:00 p.m.
Tuesday, December 12	Appalachian State	Home	8:00 p.m.
Thursday, December 14	Kutztown	Home	8:00 p.m.
Saturday, December 16	C. W. Post	Home	7:00 p.m.
Tuesday, December 19	Springfield	Home	8:00 p.m.
Thursday-Friday December 28-29	Wilkes Open Tourney		
Saturday, January 6	Hofstra	Away	8:00 p.m.
Wednesday, January 10	Mansfield	Away	8:00 p.m.
Saturday, January 13	Delaware Valley	Away	2:30 p.m.
Saturday, January 27	Madison-FDU	Home	7:00 p.m.
Saturday, February 3	Millersville	Home	8:00 p.m.
Wednesday, February 7	Keystone	Home	8:00 p.m.
Saturday, February 10	Lycoming*	Home	7:00 p.m.
Saturday, February 17	University of Massachusetts	Away	
Wednesday, February 21	East Stroudsburg*	Away	6:00 p.m.
Saturday, February 24	Ithaca	Home	7:00 p.m.
March 1 & 2	MAC Tournament at Lebanon Valley		
March 8 & 9	NCAA College Tourney at Eastern Michigan		
March 21 & 23	NCAA Tourney at Penn State		

* Also Junior Varsity

SWIMMING

Saturday, January 6	Harpur	Away	1:30 p.m.
Wednesday, January 10	Philadelphia Textile	Home	4:00 p.m.
Saturday, January 13	East Stroudsburg	Away	2:00 p.m.
Saturday, February 3	Millersville	Home	6:00 p.m.
Wednesday, February 7	Lycoming	Home	2:00 p.m.
Saturday, February 10	Pennsylvania Military College	Away	6:00 p.m.
Saturday, February 17	Elizabethtown	Home	5:00 p.m.
Friday, February 23	St. Joseph's	Away	5:00 p.m.
Friday & Saturday March 1 & 2	MAC Tourney at West Chester		

TENNIS

Saturday, March 30	Scranton	Home	2:00 p.m.
Thursday, April 4	Moravian	Away	3:00 p.m.
Thursday, April 18	Ursinus	Home	3:00 p.m.
Friday, April 19	Hartwick	Home	3:00 p.m.
Saturday, April 27	Susquehanna	Away	2:00 p.m.
Wednesday, May 1	Muhlenberg	Away	3:00 p.m.
Saturday, May 4	MAC Tournament at Dickinson		
Wednesday, May 8	Lycoming	Home	3:00 p.m.
Saturday, May 11	Moravian	Home	2:00 p.m.
Tuesday, May 14	Rider	Home	3:00 p.m.

Lafayette	1650	1900	Wilson	1500	1830

Men's Dormitory and Dining Hall

The following interior and exterior pictures are of the new men's dormitory located in the Wright Street area of the Campus. The dormitory and cafeteria have been in use since September 1966.

The design represents a departure from the barracks-type dormitory of the past. The Y-shaped, three-story dormitory houses 268 men, two to a room. The one-story dining hall provides for the serving of up to 700 students in two sittings.

This past summer saw the completion of a recreation room for all students in the basement of the south wing. A large room has been completely tiled and paneled, and fluorescent lights have been installed throughout the entire

area. This room can be used for informal meetings, dances, and similar activities. The second room has vending machines installed for cold and hot foods. The third room is the game room.

The dormitory-dining hall complex is the third major project to be completed in the past several years. The Wilkes Graduate and Research Center was dedicated in January of 1964 and the Center for the Performing Arts in October of 1965. Next in the Wilkes development picture is the Eugene Shelden Farley Library which is under construction now and is scheduled for completion in the spring of 1968.

NEW FACULTY MEMBERS

Shown are a number of the new faculty members who have been added to the Wilkes staff in line with the expanding academic programs of the college. Seated from the left, are: Dr. Leverne Hostler, physics; Dr. Liselette Schmidt, music; Marene Olson, sociology; Jill Marks, foreign language; Dr. Caroline Snyder, foreign language; Dr. Radoje Vukcevic, commerce and finance; Dr. Gerald Perkus, English; and Jack Lukis, physical education.

Standing — Donald Jones, music; Dr. Roy Williams, philosophy and religion; Dr. John Labows, Jr., chemistry; Dr. Wilbur Hayes, biology; Victor Baiz, education; Albert Serzan, mathematics and foreign language; Robert Bomboy, English; Dr. Henry Gatski, education; and Joseph Bellucci, education.

Others joining the Wilkes faculty this year are Dr. Owen Faut, chemistry; Bernard Dill, commerce and finance; Dudley Brown, English; Chern Tsai, engineering; Raymond Cooper and John Meyers, history; Sharyn Lyons, physical education; Dr. Ralph Marston, physics; Dr. Yasushi Sugiyama, political science; Jon Hobrock, psychology, and Dr. James Toole, physics.

Faculty Summer Activities

The Wilkes Faculty had a busy summer. Their many activities included teaching, studying, travel, and rest and relaxation. The following items do not tell the entire story because many of the faculty members were actually involved in two or more areas and not all of them are included in these lists.

■ ■ ■

Study is necessary to keep abreast of the latest information and to complete the requirements for advance degrees. These faculty members were involved in study in various parts of the country. Mrs. Hammer, Mr. Lukis, Mr. Colson, Mr. Sours, Mr. Sullivan, Mr. Johnson, Mr. Bellucci, Mr. Phillips, Mrs. Kish.

■ ■ ■

The following members of the faculty were involved in a variety of research projects. Some of the projects were for the presentation of papers, some required for degrees, and some in connection with their duties on campus. Dr. Holden, Dr. Donahoe, Dr. Swain, Jr., Mr. Paul Werner, Mr. Naparstek, Dr. Snyder, Dr. Mizianty, Mr. De Cubas, Dr. Reif, Dr. Tappa, Mr. Earl, Dr. Rozelle, Dr. Bellas, Dr. Hostler, Mr. Berg, Dr. Morrow.

WILKES Alumnus Featured

A special art exhibit featuring recent work of a Wilkes College alumnus was held at the college's Conyngham Annex art gallery for two weeks. Exhibiting was Robert Ford, 954 North Church Street, Hazleton. The artist is shown above, center, discussing the showing with Samuel M. Davenport, director of alumni relations at Wilkes, left, and J. Philip Richards, member of the art department faculty and gallery director.

Ford received a B.S. degree in fine arts education at Wilkes in 1965 and has done graduate work at Pennsylvania State University.

■ ■ ■

Dr. Kay visited Puerto Rico, Saint Croix, and Antigua. Dr. Schmidt traveled to the Netherlands, Germany, Austria, Switzerland, France, and England. Dr. Sugiyama traveled around the world, via England, Holland, West Germany, East Germany, Austria, Switzerland, Italy, France, the Soviet Union, and Japan. Mr. Sweeney visited Belgium, Holland, and France after teaching at Wilkes in the first session.

■ ■ ■

These faculty members worked on research for their doctoral dissertations. Mr. Shaw, Mr. Gutin, Mr. Valero, Mr. Siles, Mr. Garber, Mr. Misticelli, Mr. De Arment.

■ ■ ■

Summer school at Wilkes College has changed completely in the past few years. This group includes some of the faculty that taught and participated in the many programs. These programs will be discussed in a later Alumnus. Miss Lyons, Miss Hadsel, Dr. Jessee, Mr. De Cosmo, Mr. Green, Dr. Bohning, Mr. Evangelista, Dr. Hammer, Mr. Miller, Mr. Salsburg, Miss Williams, Dr. Perkus, Dr. Ireland, Mr. Stein, Dr. Fiester, Mr. Groh.

BRIEF NOTES . . .

The staff of the Alumni Office has worked diligently this summer to add the zip codes to all the address plates. Please check your name and address, as well as your zip code, and inform us of any corrections.

■ ■ ■

Apologies are in order from the Alumni Office to you, the Alumni. The Homecoming information came to you at the last minute. We are aware of this. We ask your indulgence as Sam gets organized and becomes acquainted with the many facets of the Alumni Office.

ALUMNI NEWS...

'42

DR. FRANK OSTAPOWICZ is Chief, Obstetrics and Gynecology Service at U.S. Naval Hospital, Portsmouth, Virginia. Frank will retire from Naval Service in August 1968 and has accepted appointment to OB-Gyn staff at St. Louis University School of Medicine, St. Louis, Missouri.

'48

WILLIAM GELSLEICHTER is manager for World Trade Activities at IBM in Kingston, New York. He and his wife, Helen, and their two sons live at 14 Arnold Drive, Kingston.

J. GLENN GOOCH, Assistant Controller of Pennsylvania Gas and Water Company, was elected Controller of the company in March of 1967. Glenn and his wife, Bette, and their son, Bradley, live at 378 Winola Avenue, Kingston, Pennsylvania.

'49

JACK KLOEBER has been advanced from senior project manager to assistant vice president of the Building Division of Sordoni Construction Company. Jack and his family reside at 244 Ferguson Avenue, Shavertown, Pennsylvania.

DR. LEWIS WHITE has been appointed acting dean of students at the State University College at Geneseo, New York.

'50

ROBERT BARBER has been elected executive vice president of Public Service Enterprises of Pennsylvania Incorporated, an affiliate of Sordoni Enterprises. Bob lives with his wife and two children at 709 Susquehanna Avenue, West Pittston, Penna.

REED LOWREY has been appointed Director of Continuing Education at Alfred State College. Reed and his wife, the former **PATRICIA COOPER**, '53, and their two children live at Main Street, Greenwood, New York.

HAROLD SCHMIDT received his M.S. in Education from Rutgers University on May 31, 1967.

'51

DR. ROBERT KOELSCH has recently opened an office in the Pennridge Medical Arts Center, Sellersville, Pennsylvania. Robert will limit his practice to the treatment of diseases of the skin.

REV. FRED HOFFMAN has been appointed pastor of Wesley Methodist Church, South Plainfield, New Jersey. Fred and his wife, Joan, and their three children reside at 1123 West Seventh Street Plainfield, New Jersey.

'52

ALBERT JACOBS has been appointed principal of Wissahickon Senior High School in Ambler, Pennsylvania.

LOUIS BONANNI is taking a ten-month course in defense management at the Industrial College of the Armed Forces at Ft. Lesley J. McNair, Washington, D.C. Lou and his wife, Theresa, live at 14300 Blackmon Drive, Rockville, Maryland.

'53

ROBERT F. HARING has been appointed general sales manager of the F. H. Hill Company, Inc., a 100-year-old casket manufacturing firm. The company is located in Chicago.

JAMES GIBBONS recently received his B.S. in mechanical engineering from Arizona State University and was promoted to a major in the U.S. Air Force. James and his wife, Thirza, and their four children live at Vista Drive, Tempe, Arizona.

'54

PHIL JONES, who has been associated with Random House-Alfred A. Knopf, Inc. in New York City, is now managing editor of the University of Chicago Press in Chicago.

'55

JUDITH HOPKINS is working on her doctorate degree in library science at the University of Illinois. She is living at 309 South Street, Champaign, Illinois.

EDWARD TROYAN and **BARBARA ANN GRAYTOCK**, '67, were recently married. Barbara is teaching in Binghamton, New York, and Edward is associated with the Bendix Corporation in Montrose, Pennsylvania. They are living in Great Bend, Pennsylvania.

'66

NORMAN STROJNY was married to Elaine Kupchik. Norman is an assistant chemist at Hoffman La Roche in Nutley, New Jersey. His wife is a graduate of Albertus Magnus College, New Haven, Connecticut.

JOHN STROBEL and **DOLORES CHICKANDOSKY** were married in June. Dolores is a systems programmer for Leeds and Northrup Company. John is a development engineer for Philip-Ford Corporation in Lansdale, Pennsylvania. They are also living in Lansdale.

FRANCIS ECKARDT was married to Margaret McHugh.

R. JACKSON BERKEY and **JANICE COLLINS** were recently married. At present Jackson is doing graduate work at Juillard School of Music in New York City.

JAMES DRAGER was recently married to Barbara Kauffman. In February James was commissioned an ensign and is now a student in the U.S. Naval Flight program. Barbara is a graduate of Centenary College for Women.

MICHAEL PINKOWSKI was married recently to Patricia Callahan. Michael is doing graduate work at Lehigh University and is teaching in the Bethlehem Area School District. They are residing at Valley Park East Apartments, Bethlehem, Pennsylvania.

GERALDINE BOCK became the bride of Neil Rapaduski. Geraldine has been teaching English at G. A. R. High School in Wilkes-Barre. This fall she joined the faculty of Sharon Hill High School in Sharon Hill, Pennsylvania.

ANN TRAGLIA became the bride of Donald Jacobs. Donald is a graduate of Pennsylvania State University.

MARY ANN ZEZIA was recently married to David Dembowski. Mary Ann is teaching in the Dallas, Pennsylvania, School District. David is a Mansfield State College graduate.

'66 (Continued)

MARTHA HOUTZ was married to David Redding. David is a senior at the University of Pittsburgh School of Dentistry. They are living at 915 River Oaks Drive, Pittsburgh, Pennsylvania.

ALFRED AIROLA and CAROLYN JENKINS were married in August. They are both teaching in Massena, New York.

DAVID P. ESLER and VICKI TATZ were married in July. David is now attending Officers' Candidate School at Fort Benning, Georgia.

RICHARD KOPKO and SUSANNE BELLONE, '66, were married in August. Susanne is teaching in the elementary grades in Franklin Township, New Jersey. Richard has accepted a position with the Piscataway Township School System.

MARY QUINN became the bride of Michael Golen-ski. Mary is teaching in Northport, Long Island, New York. They are residing in Deer Park, Long Island.

JOAN PALENCAR was married to Joseph Siecko. Joan is teaching in the Dover School District, Dover New Jersey.

CAROL SCATENA became the bride of JOSEPH SABATINI, August '67 graduate. Joseph is employed by the Department of Health, Williamsport, Pennsylvania.

EMIL WARREN and PHYLISS KRAVITZ were married in July. Phyliss is employed by the Department of the Army at the local Veterans Administration Building. Emil is associated with the trust department of the Wyoming National Bank in Wilkes-Barre. They are living at 130 Chestnut Street, Alden Station, Pennsylvania.

DDROTHY KEDDA became the bride of Joseph Maciejczyk. Joseph is a graduate of Western Maryland University. They are residing in Wharton, New Jersey.

KATHERINE KRESSIN became the bride of Robert Beeler, a senior at Wilkes.

MAUREEN SAVAGE became the bride of Ronald Szish. Maureen is teaching in Philadelphia and Ronald is a senior at Temple Dental School.

JOYCE LENNON was married to William Hoover. William is a graduate of Lafayette College. They are residing in Allentown, Pennsylvania.

DIANE WYNNE and RUSSELL SHALLCROSS were recently married. Diane is teaching in the Allentown, Pennsylvania, School System. Russell is associated with Firestone Tire and Rubber Corporation in Allentown.

DALE CLAUDE BROWN was recently married to Nancy Jean Ely on May 27th, 1967. The couple will be making their home in New York State, where Dale has accepted a position with the New York Audit Control.

EVELYN MORENKO recently became the bride of Leon A. Matelski. The couple will reside at 34 Nottingham Road, Edison, New Jersey.

JOHN JOSEPH PILOSI recently married Salvatrice Domenick. John accepted a teaching position with the Lebanon Township Schools, New Jersey. The couple will make their home at 13 South Prospect Street, Washington, New Jersey.

PAMELA JEANNE EUSTIS became the bride of Thomas Peter Reis on June 1. Mr. Reis will graduate from Wilkes in January of '68. The couple is residing at 272 Lakeview Avenue, Apartment C-35, Paterson, New Jersey.

PATRICIA A. NOVAK recently became the bride of EDWARD J. STRUCKE, JR. Pat has accepted a position as an instructor at Tompkins County Hospital, Ithaca, New York; and Ed accepted a position as industrial sales engineer with Morse Chain Company, a subsidiary of Borg-Warner Company, Ithaca. The couple will reside on Candlewyck Drive, Ithaca.

CAROL RUTH SUTTON became the bride of TIMOTHY F. SWANSON in June. Carol is a member of the faculty of the Lake-Lehman School District and Tim is on the faculty of the Wyoming Seminary Day School. They will reside at Wyoming Seminary, Kingston, Pennsylvania.

CAROL MARCIA BRUSSOCK was recently married to Ensign Joseph F. Sabatini. The couple will reside in Norfolk, Virginia, for three months of temporary duty, after which they will reside in New London, Connecticut.

EMILY WRIGHT became MRS. ROBERT D. PEACOCK, JR., in a late July wedding. Emily is employed by the Camden School System and is attending Glassboro State College for her master's degree. They are now residing at 436 B. Pfeiffer Street, Camden, New Jersey.

SUSAN F. WEST and JOSEPH G. BAKER were recently married in Nanticoke, Pennsylvania. Since January Susan has been employed as a Junior Systems Programmer by Philco-Ford Corporation in Willow Grove. Joseph will pursue post-graduate studies. They are living in Wischickon Park Apartments, 757 East Main Street, Lansdale, Pennsylvania.

THIS BRIGHT NEW WORLD . . .

'53
a daughter, Jane Louise, on July 12, 1967, to Dr. and Mrs. David Warren Kunkle, 68 Carverton Road, Trucksville, Pennsylvania. They also have a son, John David.

'54
a son, John Michael, to Mr. and Mrs. Walter A. Chapko, on April 17, 1967. The couple, along with a daughter Lisa Marie, resides at G-3020 Ridgcliffe Drive, Flint, Michigan.

'57
a daughter, Susan Ann, on December 20, 1966, to Mr. and Mrs. Robert J. Kane (Kanjorski), 24 Old Manor Road, Newark, Delaware. The couple also has two other children, Cynthia and Kenneth. Mrs. Kane is the former MARLENE MIODUSKI.

'59
a daughter, Susan, on March 28, 1967, to Mr. and Mrs. Robert J. Yakovonus. The couple resides at 1079 Cartert Road, Bridgewater Township, Somerville, New Jersey.

'60
a daughter, Laurie Mae, to Mr. and Mrs. Daniel Lewis on May 22, 1967.

a son, Cledith Lawrence, to Captain and Mrs. Cledith Miller, Jr., on August 31, 1967.

'61
a son, Keith, to Mr. and Mrs. Albert Amadio, on July 28, 1966. They also have another son, David, born on April 9, 1965. Mrs. Amadio is the former MARTHA H. MENEGUS.

'62
a daughter, Diane Lynne, to Mr. and Mrs. Richard Rees on January 28, 1967.

'64
a son, Mark, to Mr. and Mrs. Gerald Williams, on July 15, 1967. They will make their home at 6908 Millbrook, University City, Missouri.

a son, Jesse Neil, on April 8, 1967, to Mr. and Mrs. Alan E. Markowitz who reside at AR-72, R.F.D. 1, Stonington, Connecticut. Mrs. Markowitz is the former MARILYN J. PLATSKY.

a son, Steven, on May 19, 1967, to Mr. and Mrs. Clinton G. Hess, Glenwood Street, R.D. 4, Mechanicsburg, Pennsylvania. They also have a baby daughter, Ellen.

a daughter, Kimberly Ann, on June 30, 1967, to Mr. and Mrs. Richard E. Probert. The couple resides at 415 18th Street, Huntingdon, Pennsylvania.

a daughter, Tammy Lynn, to Mr. and Mrs. David J. Will, on June 3, 1967. The couple lives at 16 Hillside Terrace Apartments, Newton, New Jersey.

a son, Matthew James, to Mr. and Mrs. Franklyn Levy, on June 10, 1967. Mrs. Levy is the former SALLY COHEN. They live at 1208 Country Club Terrace, Jonesboro, Arkansas.

'66
a daughter, Shana Marie, on April 6, 1967, to Mr. and Mrs. Paul T. Bergander who reside at 7507-D Furnace Branch Road, Glen Burnie, Maryland.

a son, Joseph Alan, to Mr. and Mrs. Joseph Chanecka, on March 31, 1967.

Continued from page 5

It seems that man can envision a trip to the moon and the multiplication of his physical resources through technology, while he remains blind to those forces within himself that cultivate mistrust and fear in his neighbors. He clings tenaciously to racial, religious, social, and national prejudices at a time when cooperation and harmony are essential to his survival. As an economist, Kenneth Boulding has remarked, "The thought of man must progress as much in the next twenty-five years as in the past twenty-five thousand years."

Today, man can communicate instantly, he can destroy a great city in moments, he can devastate a great nation in hours, yet he clings to prejudices and feelings which, in a moment, can ignite the world about him. He seems to be creative in his material life and unimaginative in his social, ethical, and spiritual life. To correct this imbalance, perhaps we need to remind ourselves that although man is an animal, he is also human. He possesses a mind that gives him creative powers which are denied to other animals. He has been given the power to think — but he has not yet been willing to make the greatest possible use of this power. He can remember and, because he can remember, he can profit from past experience, but to gain this profit he must distinguish between memories and experiences that are productive and those that are damaging.

Man has some small measure of freedom, but his destiny is also, in part, predetermined by all the influences of the past and present that condition his thinking and govern his actions. If he is to enlarge this freedom, he must create intellectual alternatives, for it is only by creating alternatives that he can break the binding ties of precedent and, in so doing, gain some small measure of freedom. He must be ever aware that freedom is not a gift of nature; it is a privilege that can be won only through mental effort. Only after man has created alternatives, can he make a choice. Until he is able to make a choice, he is chained to the established patterns of his life and his society.

We take it for granted that education, religion, and politics are designed to improve man's life, but we must also observe that their great purposes are all too frequently subverted by blindness, ignorance, prejudice, fear, and selfishness. If he is to free himself from their fatal influence, man must continually re-examine his attitudes and beliefs and must nurture those intellectual and spiritual values upon which human welfare is based. It is not enough to train scientists and technologists who can harness the powers of the universe; we must also cultivate intellectual and spiritual values which will guide science and technology into channels which will enhance the life of the individual. By now it should be apparent that science and

technology without a guiding sense of purpose can lead to disaster. In consequence, man is challenged to consider the alternatives that may be his tie. Although these alternatives are limited by the accepted patterns of habit and thought, they may, if vigorously cultivated and explored, give man sufficient latitude to assure his future.

The thought and institutions of the past may be used as building blocks or they may be used as stumbling blocks. If they are to be used as building blocks and are to become part of an evolving society, they must be freed from transmitted prejudices. Without this freedom these institutions are immutable: they tie man to the errors of the past and obstruct the development of viable institutions.

To give modern man an opportunity for survival and growth, the great ideals of the past must be examined, reinvigorated, and adapted to the needs of man in a modern society. And if, as we believe, man is distinguished by intelligence and vision, such adaptation is possible even though it will be painful. Our present dilemma challenges us to cultivate within ourselves those inner resources of mind and spirit which modern civilization demands. And, because the challenge is great, these resources must include conviction and courage.

At this point may I remind you that when I speak of man, I mean us — you.

Man always aspires for something better, yet man always stumbles. Sometimes he fails because of shortsightedness; sometimes he is overcome by his own fears or by the fears and blindness of other men. Yet, in spite of all, he has demonstrated over many millenia that he can grow in stature and in social responsibility.

This summer in Vigeland Park in Oslo, I viewed with awe a sculptor's concept of life. Here Gustav Vigeland portrays in bronze and stone the "Cycle of Life." From birth to death he shows the physical and spiritual growth of men: carefree childhood, questing adolescence, awakening manhood, maturity, decline, and death are hewn in stone and bronze. But the miracle of it all is that the spirit of each age is shown — its hopes, its conflicts, and its fears.

Although Vigeland portrays the cycle of life that nature assures, he also reveals something of man's struggles and aspirations. In four of his figures he portrays man's struggle with the "monster," which in Scandinavian countries symbolizes evil, and then in the last of these figures he suggests that man is defeated by evil. But finally, climaxing and transcending the cycle of life, is a fifty-foot monolith which the sculptor says each of us must interpret for himself. On this monolith are many figures which seem to move and look upward, others struggle weakly, and still others have yielded to despair. From these figures I gained the impression that the

sculptor's purpose was to suggest that man, although defeated, always aspires and strives for a better life. As I viewed Vigeland's work, I was filled with awe for the vision and skill of the sculptor and for the clarity with which he portrayed the life of man. He shows the power of evil and the blindness of man but, in spite of his pervading pessimism, he seems to derive a gleam of hope from man's perpetual aspirations for something greater.

It seemed to me that in his portrayal of life, Vigeland unintentionally defined the responsibilities and challenges of education — enrichment of the cycle of life, the overcoming of evil, and the development of man's talents and resources beyond anything yet known. His portrayal of life suggests that perhaps the greatest purpose of education is to make man aware of his humanness, to free his mind and to cultivate it, to perpetuate those qualities of mind and spirit which enhance his life and give it significance.

There are, of course, many kinds of education. Some are designed to indoctrinate and to assure conformity. Some are intended to give man those choices that are the keys of the free mind and the free society. Some are designed to develop skills, others to enlarge knowledge, and still others to enlarge the vision and extend the horizons of human endeavor.

You will experience some exposure to all of these forms of education, but the nature and character of your education will be determined by the choices that you make. If you limit yourself to technical training, your capabilities and horizons will be restricted. If you prepare to expand the applications of technology, your capabilities and horizons will be enlarged. If you strive to understand the relationships of man and society to nature, your horizons will be unlimited, but to act effectively you will need to develop some special competence.

If you have not yet decided upon the "educational mix" that you desire, I hope that before choosing you will give thought to the particular blend of education that will satisfy and inspire you. Such consideration will challenge you and will start you on an unending quest for understanding. Gaining an answer to one question, you raise other questions that will engage your interest and your energies. As you mature, the questions that you ask yourself will determine the nature of your education, will mold your character, and will shape your life.

In this present period of history man's achievements force him to consider many questions so that he may choose between a tragic end or a new beginning. Intelligence and creativity have given him the power to improve his lot or to destroy his

civilization: his knowledge reveals the alternatives that confront him. It is an awesome responsibility to possess this intelligence, for without the courage, the resolution, and the wisdom to make a new beginning it ends in futility.

With these alternatives before us, what a challenge confronts you. You must understand more of man than he has yet understood of himself. You must liberate yourselves from the shackles of racial, religious, and national prejudice. You must seek to enlarge your knowledge and your experience so that narrow loyalties, which divide us, may be supplanted by broader loyalties, which unite us. And while doing all of this, you must maintain the integrity of institutions that have long served man for they are the foundations upon which the future must rest. They are the only foundations upon which to build, and they must be preserved even as they are modified and improved. They must be changed into agencies of cooperation and progress rather than agencies of division and destruction.

I wonder as I suggest some things that will be required of you in the next quarter century, whether I encourage you or discourage you. I offer you quite an assignment, but if you wish to live — as I hope you do — you must be willing to undertake it.

The need to be human involves both personal and social values, for habit and shortsightedness and selfishness still lure man on the path to tragedy. And because this path can be so alluring each of us must be prepared to question his motives as he makes his own personal decisions. This consideration of motives which is essential to the individual becomes even more important when we make those broader decisions that influence or govern the relations of races, of nations, and of social groups. By adhering to the prejudices and narrow loyalties of the past we jeopardize our future: by developing larger loyalties we prepare the way for continued progress.

Lest any of you assume that I am suggesting that you cast aside long-accepted loyalties, let me assure you, that is not my intent. I strongly believe that loyalty is an essential element of personal integrity and only as we maintain our integrity and enlarge our loyalties can we reduce the group tensions that today cause conflict and destruction.

Of course, none of us recognize the narrowness of our own loyalties: if we did, they could not confine us. We do, however, hold to the belief that our way and our group are best, and this is particularly true when we know little or nothing of other ways and other groups. To be sure, modern communications enlarge our awareness, but mere awareness is insufficient; it must be given greater meaning through broader experience and deeper understanding. Should you doubt the suggestion

that awareness is limited by inexperience, I suggest that you look about you and then ask yourself these questions, "Who is possessed by racial prejudices, the person with limited inter-racial experience or the person with broad inter-racial experience?" "Who is limited by social, religious, and national prejudices, those with varied associations or those with limited associations?" If you ask these questions many times, I suspect you will conclude that broad contacts and varied experiences moderate the prejudices that separate mankind. To replace bigotry and prejudice we, therefore, must seek to enlarge our knowledge and experience so that we may adhere to and support the great ideals upon which any lasting civilization depends.

But, let us never use ideals as an escape from reality or reality as an excuse for abandoning ideals. Although our ideals can never attain full harmony with the realities of life, it is the struggle to equate ideals with reality that sustains the struggle for a better reality.

There must always be a gap between the ideal and the actual, for so long as we remain alive we will envision more than we can attain. Indeed, this gap between reality and the ideal may provide our most vital force for growth. When we are satisfied with "what is," we stop trying. When the gap is too great, we are discouraged and, therefore, make no effort. When the gap between the ideal and the real is sufficient to give hope, a creative tension develops and we are challenged to translate the ideal into reality.

This effort to improve reality is perhaps the greatest challenge confronting our scientific-technological society. Although we enjoy the automobile and the products of our factories, both the automobile and the factory pollute our atmosphere and jeopardize our health. Modern medicine and improved nutrition have doubled the span of life during the past century, but the continuation of this trend and the resultant increase in population portends racial suicide by starvation and pollution. Modern communications enlarge our reservoir of information, but they also enlarge disputes that were formerly confined to limited regions. The release of power from the atom and the fossil provides us with comforts that were undreamed of when you were born, but world conflicts make us ever aware of the atomic threat. Every gain seems to encompass both a promise and a threat.

For a quarter century it has seemed that man's concern for material progress could de-humanize him. The release of atomic power, the growth of automation, the thrusts into space, the population explosion, and the possibility that man may control and create life are the products of science and technology. Unfortunately, these products of man's genius threaten even as they give promise. Although essentially neutral, they enhance man's

power both to destroy and to create. Ultimately men must decide how they will be used, but, as yet, they have made no decision. People often seem overwhelmed to the point of indifference by the choices that confront them. They do not yet realize, as Toynbee so clearly demonstrates, that long-accepted habits of thought and of conduct must change if the newly released forces of nature are to be used for the benefit of mankind rather than for his destruction. To be human is a choice that men, all too frequently, are reluctant to make. But, man has a choice if he has the will to make it.

Faced with the need of adapting our habits to new conditions we must prepare to change ourselves. Some say that man cannot change. But the story of this globe shows that change is essential to survival and our presence gives testimony that man has survived for hundreds of thousands of years. I suspect that all of us who are a link in this chain of life have no desire to be the last link. We would prefer to believe that we are the link with the future, but are we yet ready to adapt our habits and our thoughts and our practices to the demands of the new conditions that surround and confront us? We have more knowledge to aid us; we have the vast resources of science and technology to command, but we do not yet accept the self-evident fact that the future of man rests, at last, in our own uncertain hands.

The changes that take place around us confuse us, overwhelm us, and leave us groping. Without gaining a sustaining faith for the future, we have lost our faith in the hopes and promises of the past. We are caught in the conflict between modern knowledge and past practice. Whereas psychiatrists advise us that love and faith are the greatest forces for good, we cultivate hate and fear which they consider the most destructive of forces. We are advised that love gives meaning to life — in the words of the folk singers, it makes life worth living. But love that enriches our lives is based upon trust, respect, sympathy, and a certainty that those who love us will stand by us in the face of misfortune as in the glow of good fortune. Love is not a whim depending upon physical attraction, even though physical and sexual attraction are the core of the warmest of human relations, marriage. And yet there are those of great knowledge, but dubious wisdom, who recommend a multiplicity and succession of sexual alliances. Do those who advocate and engage in such ephemeral alliances ever develop integrity or attain happiness? In their grasp for momentary gratification and pleasure, are they able to develop the sustaining power of love that is based upon devotion to another which exceeds one's concern for self?

I suppose I am saying that the great things of life are cultivated within us and between us.

They are not gained casually, they must be nurtured by thoughtfulness, kindness, consideration, and attention. The finer things of the spirit grow within each of us when we work with others in a cooperative and constructive effort. Unknowingly, each of us gains as he helps others and involves himself in a cause that is greater than self.

If we are to favorably resolve the human struggle we must abandon long-held prejudices, outmoded structures and loyalties. As we strive to create a new future we must recognize and accept one great difference between our generation and earlier generations. This is the degree and rate of change required of us. Today science and technology create changes in one generation that exceed the cumulative changes experienced by fifty previous generations. Whereas earlier generations could depend upon the tortuous processes of trial and error—and the elimination of those who could not adapt to new conditions—we must envision and plan our adaptation to new conditions.

We are the advocates of change—we are the slaves of change. Advocates of physical change promise immediate material gains even when these same changes promise to damage the environment upon which our welfare depends. It is seldom, however, that we recognize the need for change in ourselves. Possibly all of us could profit from the prayer of a Chinese Christian, written before the days of Mao, "O Lord, reform thy world but begin with me." How else can the great changes required by the developments of the past century and the prospective changes of the next century be made? We have reached a time when the thinking of men must change if mankind is to survive. I suggest to you that we give thought to survival, recognizing that survival in this crowded world requires im-

provement of self so that we may better live with our neighbors. And who are our neighbors? Today they are all of mankind, for today we are sometimes closer in thought and culture to men on the other side of the globe than we are to the family next-door.

So it is that in planning his adaptation to rapidly changing conditions, man at long last is compelled to consider the need for those human qualities that enhance the lives of men. Concern for others, compassion, consideration, and even gentleness and love become man's primary concern. Without these qualities man may lose himself in the mechanistic world that he has created. So while machines threaten to impersonalize our lives and computers reduce us to mere numbers, let us escape from automation by cultivating those warm human qualities that make life worth while. Let us give as much attention to liberating the human spirit as to harnessing physical power. Let us concern ourselves with the inner spaces of the heart and mind, even as we explore the unlimited spaces of the universe. Inner exploration may not be so glamorous but it can be more productive. If it is not essential to our survival, it is essential to our sanity. We are pressed to develop the powers of the human spirit so that they may give direction and meaning to the efforts of man's mind. Let us hold man—individual man—in greater esteem than his machines. Let us ever remember that our powers of creation are infinitesimal by contrast with the Power that has created the universe.

In our humble way, let us strive to understand the laws of the universe so that we may learn to adapt our thoughts and lives to them. Only as we adapt our ways to the compulsive force of these natural laws can we hope to attain the inner serenity that is the only source of external harmony. ■

1954 . . . In Memoriam

Miss Lucy J. Liggett, assistant to the director in nursing education at Nesbitt Memorial Hospital School of Nursing for twelve years, died on September 17, 1967, at the hospital. She was held in high regard by everyone with whom she dealt.

Miss Liggett enlisted in the Army Nurse Corps in January 1943 and served in the European Theater of Operations in London, England. She received the Army Commendation Ribbon in 1946 and was cited for her work in neurology and aphasia nursing.

In 1955 she was awarded the first Cardiovascular Work Conference Scholarship from Northeastern Pennsylvania Heart Association. Miss Liggett received a master of science degree in education at Temple University in 1963. An alumna of St. Luke's Hospital School of Nursing and Wilkes College, she was on the evening school faculty of Wilkes.

Miss Liggett had been in apparent good health and had performed her duties the previous week. She is survived by a brother, Abner Liggett of Ashley.

THE WILKES COLLEGE CHAIR

- Wilkes College Seal is a Gold copy of the original design.
- Suitable for office or home.
- Made of northern birch and finished in black and gold trim.
- Distinctive and comfortable.

Sold exclusively by your
ALUMNI ASSOCIATION

WILKES COLLEGE ALUMNI ASSOCIATION

Enclosed is for Wilkes College chair(s) checked below.

- ☐ 342-214 Arm Chair, Black Arms @ \$39.25
- ☐ 342-218 Arm Chair, Cherry Arms @ 40.00
- ☐ 341-214 Side Chair @ 24.50
- ☐ 183-214 Boston Rocker @ 32.25
