## FOREWORD

What is its purpose; what is its goal? The purpose of any yearbook is to preserve the memories of the school year; its goal is to improve. Within these two hundred and twenty-four pages are preserved such memories of the '66-'67 academic year at Wilkes College—memories of those eventful events, of the gaiety and seriousness of campus life, of athletic competition, and of group activity. As time progresses, the value of this book will increase especially to the senior who will occasionally glance and recollect his memorable graduation year.

Dr. Frank J. J. Davies

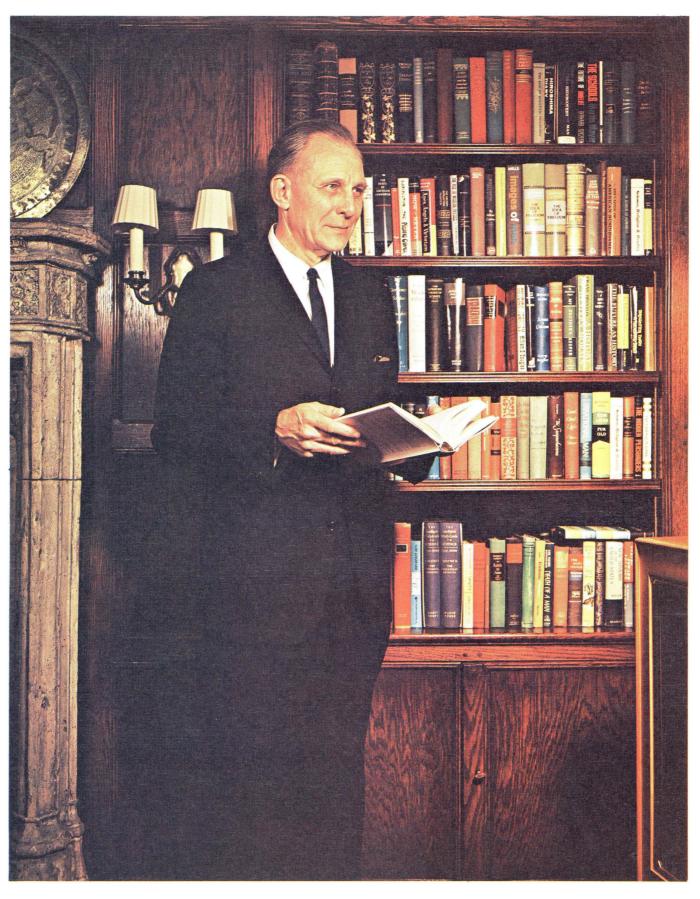

#### DEDICATION

During his nineteen years of devotion to the College, Dr. Frank J. J. Davies has labored both quietly and unceasingly to establish excellence as the most integral aspect of the scholastic tradition. With his B.A., M.A., and Ph.D. from Yale where he was Phi Beta Kappa, he came to the college in 1947.

As professor of English and chairman of the department, Dr. Davies has achieved the respect granted only to a man of an intensely individual character and of an outstanding intellectual stature. To the students and colleagues who have been privileged to know him, Dr. Davies will always represent the highest accomplishment of the scholar. While his vigorous application of the highest standards in scholarship and professorship has strengthened the curriculum, his warmth and wit have endeared him to those students whom he has guided.

It is in recognition of the wisdom, wit, and warmth, which even his British reserve could not conceal, we humbly offer this dedication.

Dr. Eugene S. Farley

#### PRESIDENT'S MESSAGE

#### TO THE CLASS OF 1967

You will live longer than any generation that has preceded you. Physically your life will be easier than that of any earlier generation. At least that is the promise that is projected by the trends of the past century.

And yet there are many doubts that must confront you. Will your years be fuller and more fruitful years or will they be barren and unproductive? Only you can answer this question for the answer depends upon the values and standards by which your life is governed.

You can enrich your life by involvement in some creative work. You can debase your life by seeking material ends or personal gratification without regard for those with whom you will be associated and who will follow you.

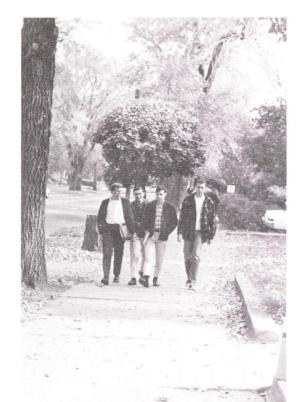

If you wish fulfillment, find a cause that is greater than self and lose yourself in it. The challenges that it offers will test you and each test that you meet will regenerate you and prepare you for greater achievement. Of course a cause greater than self may also capture you and enslave you. It is better to be enslaved by a great cause, however, than to be chained by boredom and futility.

No one is truly free so let us choose bonds of responsibility that will constantly lead us forward into greater efforts and a richer life.

I do not wish for you a life of ease and complacency; rather, I wish for you challenge, continuing growth, real achievement, and personal fulfillment.

Faithfully yours,

Eugene S. Farley

#### LIFE

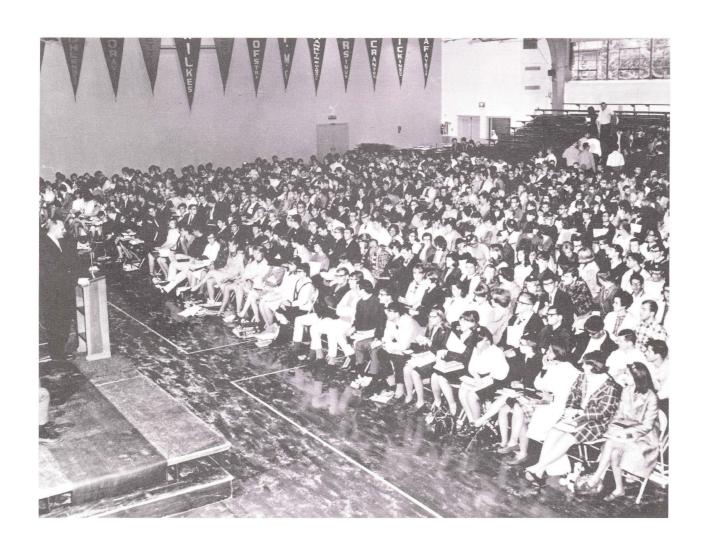

There's a kind of funny inverse symbolism present when school starts in the fall. Nature's dying; her leaves are scattered over the campus. Yet this is the time of life, the start of education; and somehow we feel that nature should also be living when classes commence. But then nature is not that out of tune with the world of man, for her dead leaves do quicken a new birth. Man leaves behind her visions of spring and summer and turns instead to another world, to education, to the process which is the means to explain all of life.

After the rigors of hazing, registration, and the challenge of new classes, students prepare again for a different aspect of life. In this educational process students meet with various phases of college life: the learning, the social, and the physical plant of the school, all of which are merely parts of the great whole: Life itself.

## LEARNING

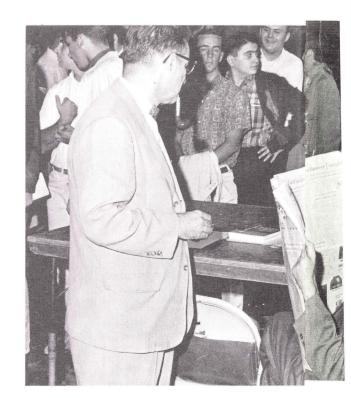

Old ideas, new ideas often discussed, studied, rejected or maintained in old homes which possess an aura of wisdom with age. Yet the campus is a dichotomy of the old and the new. Old ideas, new ideas are also often discussed, studied, rejected or maintained in new buildings. And ivy, if you want to call it an equalizer, clings to the old and to the new of anything.

## LIBRARY

Situated on the corner of South River and South Streets in the once Kirby residence is the Wilkes College Library. In June, 1968 the antiquated atmosphere—the winding stairs, the fireplaces, and the tapestry walls are to be substituted for modernization when the library will be relocated in a new, totally modern facility on the corner of South Street and South Franklin Streets.

With expanded room area, the library can easily shelve and add to its 80,000 volumes and 700 periodicals. Also the Graduate Science Library currently located in Stark Hall will be reunited in the new building. Thus the long anticipated plans will soon become reality.

This year proved to be no different than last. As soon as the magazine was released to the campus, it became harder and harder to procure one. After a year of hard work and hard writing, the story of their literary genius is told.

# SOCIOLOGY 'THE GROUP'

The purpose of this GROUP is to further interest in sociology and the applied sciences. Sociology is a new and advancing field which is appealing more and more to college students. Various speakers have visited Wilkes this past year to further interest in this work.

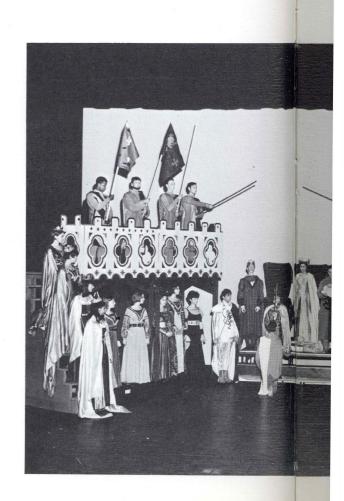

# ARTS

The face value of the dramatics club is not only seen in the plays it produces; the backstage activity is a great part of its theatrical ability also. These pictures were selected to show the "people behind the scenes."

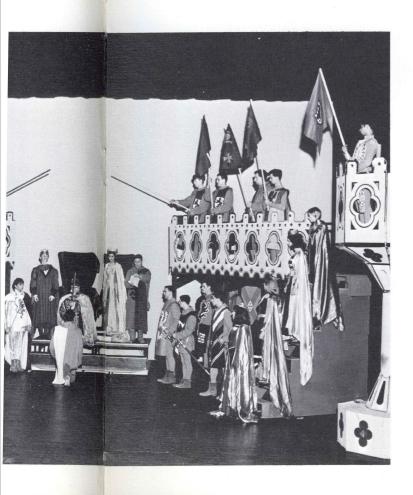

The next undertaking was OTHELLO. In the interim of these two time-consuming plays, the Music Department, under the direction of Mr. Chapline, produced John Gay's BEGGARS OPERA, while Jan Kubicki produced SORRY WRONG NUMBER.

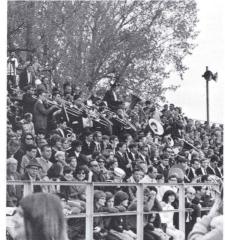

## MUSIC

The music department of Wilkes houses some of the finest musical talent in the area. From the various singers and musicians in this department, good will of Wilkes is spread across the East Coast. These students not only do their school justice, but their community as well. The following musical organizations exemplify their talent.

#### BAND

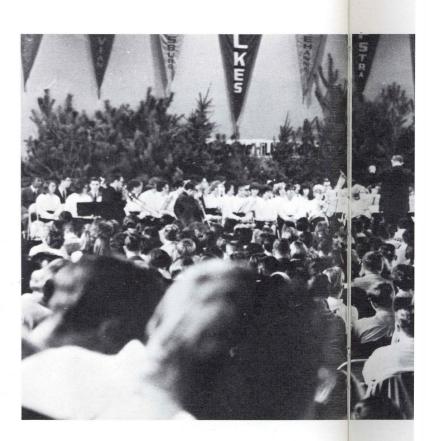

What can we say about the Band, that hasn't already been said. They are the best musicians in the Middle Atlantic Conference, and the most devoted followers of our football team ... even when it pours, snows, or freezes. The Band also plays at musicals, Homecoming, Assemblies, and this year at the Freshmen Picnic.

EVENTS

### FRESHMEN-ORIENTATION-PROGRAM

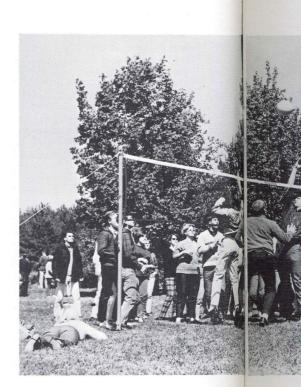

The week of September 11, 1966 was the orientation period for the incoming class of 1970. Conferences, receptions, meetings with Big Brothers and Big Sisters, and an outing at Fair-Lee highlighted the week.

Classes and hazing officially began on September 19 and ended on September 27 with Skit Night. Sturdevant took the honors for the best women's skit while Wing B of the New Men's Dorm got the title for the men. Right in the middle of the hazing period, September 23, to be exact, freshmen had to drag their toys around (probably some symbol of high school days) and later to donate them to a children's orphanage. orphanage.

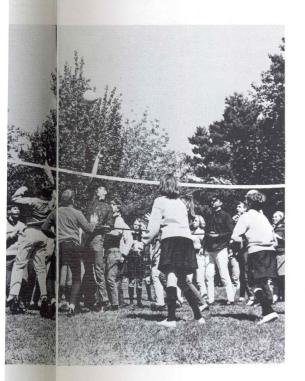

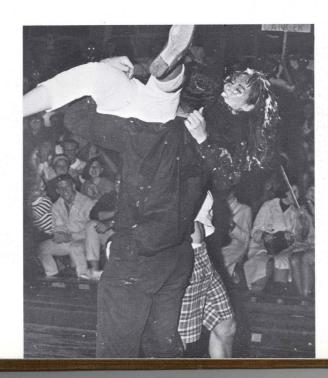

### PARENTS' DAY

In October, approximately 600 parents took part in the activities of the Fourth Annual Parents' Day. During the morning registration period, tours of the campus were conducted by various clubs, and flowers distributed to the mothers. Seminars on "Student Adjustment to New Experience" were held by Student Government. The parents witnessed the victorious soccer and football teams in action to round out a day of fun at Wilkes.

Complementing its most important fall production, Camelot, Cue n' Curtain presented Shakespeare's Othello during its spring season. Producing a difficult play, one that is fraught with lust, greed, sensuality, and suspicion, Cue n' Curtain rose to new heights in acting and staging. Edwin Manda as Othello, Darlene Van Meter as Desdemona, and Jan Kubicki as Iago were superb in the interpretation of their roles. Othello's staging was an innovation in that a raked stage with a minimum amount of setting was used in order that time and geographic location would be de-emphasized and that the play's universality would be emphasized. There were a few subtle but necessary changes in the Bard's script so that Othello's identity and the play's focus on him would be established immediately.

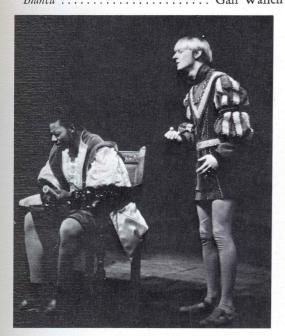

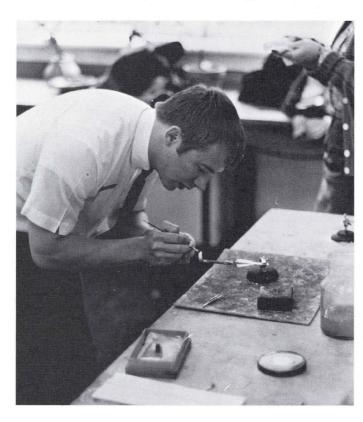

### WILKES COLLEGE ART FAIR

Art Fair 67, under the direction of Mr. Anthony Evangelista, was another demonstration of the creative abilities of the college's art majors. This year's fair presented a variety of artistic media: there were oils, acrylics, watercolors, graphics, jewelry sculpture, and ceramics. # CANDIDS

## REGISTRATION

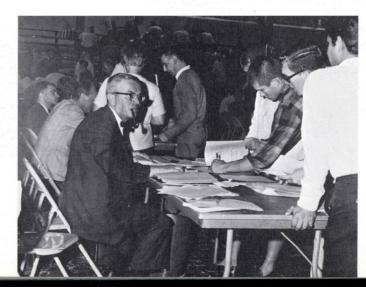

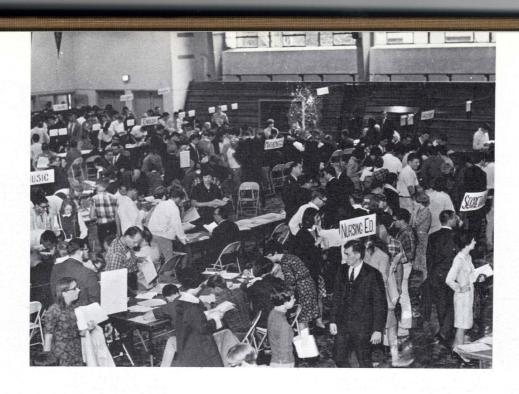

Registration seemingly degenerates into planned reprisals: "What do you mean I can't sign up for History 107? I'm a senior, and I need it to graduate." And the poor student attempts to cajole the prof who gave him a D in History 102 while the prof obviously cannot fit him into the course ... ostensibly because thirty thousand sophomores and juniors signed up before him. Seriously though, registration tends to be a bit chaotic; but at it's end, all ends well. Most everybody ends up with fifteen credits (maybe not the fifteen credits he wanted), and our poor senior does get in History 107.

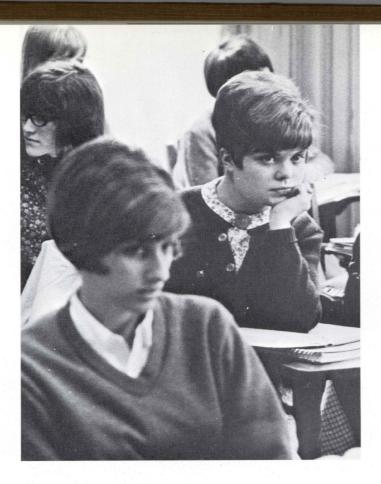

# CLASSROOM

Thoughtful concentration, eyes bright with sudden understanding, mouths merry with laughter, are all expressions of the classroom's learning experience.

## FINALS

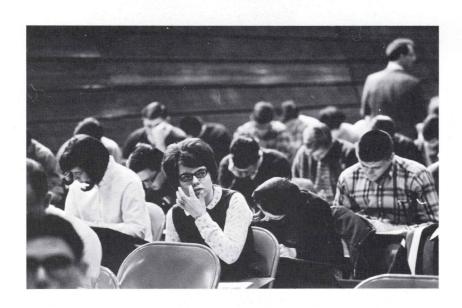

The wise student studies for these three hour marathons. Pity that there should be more wise students around. Often a grade can go up or down because of finals. Other than giving this bit of free advice, finals are interesting studies of students taking them and profs giving them. Hair is constantly being tossled; nails are constantly being bitten—by both students taking the exam and the prof who made it up. The latter is fearful for his life because his exam is on the book while he advised his students to study only their notes and forget the text.

### MASTER OF SCIENCE IN PHYSICS

THOMAS MICHAEL HESLIN JAE-HYOUNG PARK

## AMEN

Conyngham "cubby-hole" 109 housed a dozen industrious souls who danced around two tables hoping to find an unavailable cleared area in which to work on trips. The eliminating and choosing search through mazes of photographs has finally come to an end—at least for this year anyway. Despite the handicaps of an antiquated typewriter, of insufficient work space, and the confusion involved with club pictures, the book has arrived for the students—to appraise. But praise must go to those whose friendship and promise of "dedication forever" will always be remembered.

My thanks to a dedicated photographer, Bob Cardillo, for the stack of photos that made this book possible. Thanks Jim and Tommy for assisting Bob with complete coverage of all campus activities.

Thanks ever so much George for a fine sports section. Best of luck with the responsibility of organizing and co-ordinating the '68 AMNICOLA.

Alicia attacked the most perplexing section—clubs. Thanks for a better developed and organized section, and thanks also for the wit and humor that sustained all of us throughout the year.

Thanks Barry Miller for those ads that managed to keep us from going in the red.

My thanks to Irene for her work on the dorm section, to Carol for her layouts and humor, and to Ellen for her nimble fingers that accurately typed the copy. Thanks to Jane, George, and Fran who completed the dozen. Appreciation to Mr. Colson for his constant advise.

The staff could not possibly deserve all the thanks. To the BEACON we owe thanks to Leona and Walt for their assistance in completing last minute copy. Sincere appreciation to Mr. Gordon Roberts for his help in acquiring a contract for the senior photos, and thanks to those students and faculty who have generously shown their support by their suggestions, co-operation, and by ordering a memory book.
