To the Class of 1962—

As I write this message to the Class of 1962, I am reminded that every message to a graduating class has been written in a period of crisis. Wilkes became a four-year College and the Amnicola made its first appearance just as we were beginning to realize that the Hot War had been succeeded by the Cold War—That the clash of arms had given way to the clash of ideologies. Issues of the Cold War have confronted us ever since, so that crisis now seems to be the norm.

Experience of recent years has demonstrated that the nature of the future has not yet been determined. We find ourselves at a turning point in history and we are learning slowly that the future direction of mankind has yet to be decided. We are also discovering that the final resolution of this crisis is not to be gained in a year, a decade, or even in a lifetime. If this is so, we must accept crisis as the normal condition of our times, and we must prepare ourselves to live effectively in the midst of upheaval.

It is perhaps well that we do so for we will then better prepare ourselves for that confrontation of ideologies which characterizes the era in which we live. If we look upon crisis as the norm for our times, we must examine our ideals and practices with the intent of improving them. We must recognize that in a free society, our strength rests upon the individual. If, as individuals, we examine every idea and every act, and if we then assume our full measure of responsibility, our civilization can survive and can grow stronger. If we concern ourselves with the welfare of mankind everywhere and if we strive to release and nurture the hidden talents of untold millions, we will translate our ideals into reality and assure the vigor of our civilization.

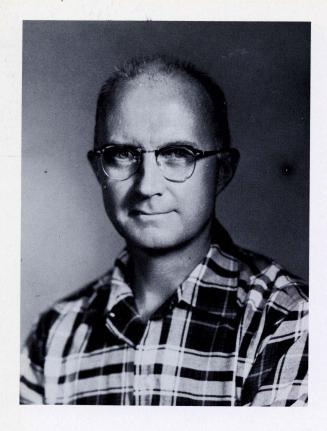

Let us accept crisis as the norm of our times. Let us recognize that this crisis is the creation of men and can only be resolved by men. Let us assume our full measure of responsibility for the resolution of this crisis in favor of freedom

Let us always remember that freedom depends upon the respect of man for man. Let us recognize that respect begets confidence in one's self and in one's neighbor. Let us see that confidence in one's neighbor is the first essential of freedom. Let us acknowledge that we can create confidence only by demonstrating our own desire to share freedom with our neighbors.

I am grateful for our years of association at Wilkes. In the years to come, I hope that we shall find ourselves united in the struggle to maintain, and to bring to fruition, the great ideals upon which our civilization has been based.

Sincerely

Eugene S. Farley

### **DEDICATION**

Because he exemplifies the teacher at Wilkes College . . .

Because he is respected as such and as a worthwhile citizen, not only of the college but the community in which he lives . . .

Because of the many hours he spends in extra work for the students and the interest he puts into student activities . . .

Because he works for the future well-being of both the student and the college . . .

Because he has been a member of the Wilkes faculty for twenty years . . .

We, the staff of the 1962 Amnicola, dedicate this yearbook to Dr. Charles B. Reif.

### **ALMA MATER**

Wilkes, our Alma Mater
We pledge our hearts to thee,
Honor, faith, and courage,
Truth and loyalty.
In our work as in our pleasure
Guide us as a friend;
We shall always love thee,
Loyal to the end.

Thou shalt lead us onward
In search of finer things.
May we find the wisdom
That thy spirit brings.
May our deeds of love and service
Ever swell thy fame—
Wilkes, we stand to greet thee!
Glory to thy name!

### **FOREWORD**

As in the past, each individual at Wilkes has had a year crowded with memories, combined with confusion, and marked by significant events. Within this framework, truth, knowledge, attitude, and character are formed. All our activities enter in the making of a mature individual. The 1962 *Amnicola* is a mirror of these activities. We hope that as you read this seventeenth edition you will enjoy our presentation and return to it again and again as time progresses.

We feel confident that you will appreciate the time, effort, and energy put into its making by your fellow students.

Our own favorite recipe:

Mix (gently):

261 gallons of coffee (strong)

5 class hours each week

72 missing photographs

29,321.4 cigarettes

1 nervous wreck of an editor

192 copy sheets Add (when things begin to boil):

1 typewriter (inoperative)

19 smiling faces

1,200 irate students

1 worried advisor

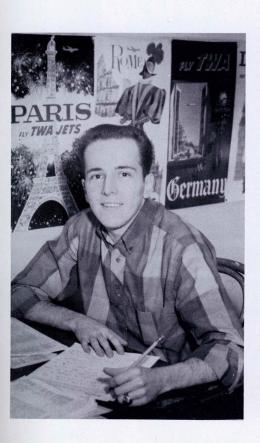

3 dozen chewed pencils

2 toes from a left winged gnat

Add confusion to taste

(shake thoroughly for 136 hours)

Ed. note: If the end result winds up all wet, we know you will have plenty of hot air ready.

### ACKNOWLEDGEMENTS ...

Despite numerous setbacks, the last pages of the 1962 *Amnicola* have gone to press. As the staff breathes a sigh of relief, the editor must take pause and thank the many people, on and off campus, who helped produce this year's edition.

Special thanks to Elaine Adams and Bob Hyrnkiw for their co-operation in what seemed to be endless Sunday sessions. Bill Williams, our "ace photographer," deserves special mention for his many hours in taking and developing pictures. To the rest of the staff who planned layout, selected pictures, suggested captions, and typed the final pages, many thanks!

Mr. Chester Colson, our new advisor, deserves mention for his patience, advice and encouragement.

To those students and faculty members who posed for us, thank you. We appreciated your endurance of schedule mix-ups and delays, occasional missed appointments and the retakes necessary in the course of the year.

We thank the following studios for special photos: Berthold, Brown, Hoffman, Lance and Lyons.

It is the editor's hope that all are satisfied with the 1962 *Amnicola*, especially those who contributed in making it the book it is.
