

## IRHC Will Move Pickering Office To Student Center

by Donna Nitka

President Bill Lourie announced at Sunday's IRHC meeting that IRHC will soon be opening a new office. The new office will be located on the second floor of the Student Center, in the Pool room. IRHC will continue to use its office in Pickering lobby until the new office is made ready.

Chris Lain, Co-chairperson of the Human Services Committee, reported that the first Blood Donor Day of the semester is scheduled for Friday, November 6. She stressed the need for student support of this event. Lain noted that the committee will again award \$25 to the residence hall with the highest percentage of donors.

Other topics discussed under new business included community commitment and fund-raising for the NACURH conference. Lourie stated that, as a major college organization, IRHC has a commitment to support the Wilkes-Barre community. He noted that IRHC would be working jointly with CC in developing ways in which the Councils could show their support of the community.

As part of its fund-raising effort to attend the upcoming NACURH regional conference, IRHC sponsored a pizza sale Sunday night. The Council also plans to hold a

caramel apple sale in the near future. Proceeds from both sales will be used to send representatives to the NACURH conference which will be held on November 6, 7, and 8 at Wittenburg University in Dayton, Ohio.

In his closing comments, Lourie again stressed the importance of representative's attendance at the weekly meetings. He also reminded the reps to support IRHC in their respective halls.

NOTE: It has brought to the attention of the *Beacon* that two of the statements in last week's IRHC article were incorrect. It was reported that, according to the new IRHC amendment, if an IRHC quorum could not be gathered within 24 hours, Student Government would have the power to decide IRHC matters. It was also reported that Bill Lourie stated that he would recommend the Freshman Follies to next year's Council as an alternative to hazing. The following is the corrected information: The Council decided that the Executive Council, not Student Government, would have the power to decide IRHC matters, and Lourie would recommend the Follies as an alternative to hazing only if hazing was banned by the college.

## Nuclear Disarmament Symposium Seeks To Educate On Dangers

An informal symposium on nuclear disarmament and nuclear war will be held Wednesday, October 14, and Thursday, October 15, in Stark, room 101. The program, "The Nuclear Weapons Dilemma" will include lectures, films, and periods for questions and discussions.

The symposium is being conducted by a group of faculty and students and is designed to educate students and interested others about the potential dangers of nuclear armaments.

The schedule for the two days is as follows:

Wednesday (10/14)

Keynote Addresses — SLC 101  
7:30 p.m.

Nuclear Weapons and the Effects of Nuclear War: Mike Case, E&ES Department.

The Arms Race — For and Against: Herb Frey, Asst. Minister, First Presbyterian Church, Wilkes-Barre.

Thursday (10/15)

Films — SLC 101  
2:30-7 p.m.

Presentation and Discussion  
SLC 101 — 7:30 p.m.

Halting the Arms Race — What Can We Do? Led by Herb Frey and Mike Case.

## NOTICE

Responding to requests by the administration that the continuity of the *Beacon* not be broken, the student newspaper of Wilkes College has been published this week. Due to the unexpectedness of these requests, only four pages have been published. Although financial difficulties still exist, The *Beacon* will return in an eight page format, as originally scheduled, until further notice.

SG

## First Party In Student Center's 'Cavern' Scheduled For Tonight

by Doug Fahringer

At Monday's Student Government meeting, Jay Tucker, Director and Advisor of the Student Center Board, welcomed the future moves of the SG and IRHC offices into the Student Center. He also announced the SCB Party which will be held tonight from 9 p.m.-1 a.m. in the "The Cavern" which is the lower level of the Student Center. "The Cavern" is now the central location of the games in the Student Center. Tucker also mentioned the upcoming Video Game Tournament scheduled for Thursday, Oct. 15 from 4-10 p.m. For more information concerning the tournament, contact Jay Tucker on the second floor of the Student Center.

In other business, the Biological Society returned, requesting \$200

from SG to help accommodate 12 students planning to attend the Chincoteague and Assoteague Islands on Oct. 17-20. The new request will be voted on at next week's SG meeting.

The Abeline and Old Friends concert was deemed successful; SG Recording Secretary Elaine Kerschusky noted the good turn out in the gym and said that \$522 was made from the concert. The Social Committee then announced plans for a Country and Western Party scheduled for Friday, Oct. 23 in the Student Center.

Constitutions submitted by the Martial Arts Club of Wilkes College and by IRHC were both read and passed by the SG body.

Also at the meeting, an Anti-Nuclear War Symposium was announced for Oct. 14-15. Lectures

on nuclear weapons and the effects of a nuclear war will be given on Wednesday at 7:30 p.m. in SLC 101, and on Thursday there will be a brief presentation and discussion concerning these issues. The symposium is a joint effort sponsored by the Environmental and Earth Science Club and the Political Science Club.

SG Representative Janine Tucker raised another topic at the meeting concerning the poor lighting on campus. She felt that this was a matter that needed to be brought to Dr. Shaw's attention. Tucker said that "security at night is dependent upon proper lighting." The area Tucker cited is the walkway between the Annette Evans Alumni House and the Student Center.

## Apartment Committee Chairman Outlines Future Plans With CC

by John Finn

The new Chairman of the Apartment Committee was introduced to Commuter Council Monday night. Rudy Fischl, himself an apartment student, briefly addressed the council and outlined his ideas for operating the committee. He stated he would like to establish a system of communication and reference for apartment students or prospective apartment students. Fischl also suggested the possibility of a workshop for people seeking an apartment. The workshop would deal with matters such as how to examine leases and contract obligations and other legal and technical aspects of finding an apartment.

Other committee reports consistently pointed out poor attendance at individual weekly committee meetings, a situation that

has not improved since the beginning of the year. Joe Knox, President, has offered suggestions in the past to remedy the problem, such as urging each Council member to recruit at least one non-CC student for committee membership.

Dave Kalinowski, C.C. Homecoming Committee Chairman, stated he "will not report what's going on" with his committee because "I don't want it to get out yet." One fellow Council member stated, "I've been to all the meetings and I still don't know what we're doing."

Kalinowski was also Mr. Enthusiasm Monday night. This is a new feature of the Council sessions. For a few moments, Mr. Enthusiasm stood and gave a rousing oration designed to instill enthusiasm in other Council members; he also facetiously threatened bodily harm to any

member who did not comply.

Thor Foss, Chairman of the United Way Drive, announced plans for a Walk-athon. No definite date has been set, but Foss said it may be around October 23. He also stated that although he has participated in a Walk-athon, he has never directed one before and said he would appreciate any organizational help.

The date of this year's Blood Donor Drive has been changed from October 29 to November 6. CC is considering conducting contests to increase commuter involvement in the drive. Most contest plans call for prizes to be awarded to clubs and organizations which contribute the largest amount of blood from its collective members. Some members objected to proposals for a C.C. contest that would give prizes to individuals

## Two ROTC Officers Promoted

by Andrea Hincken

Two members of the Wilkes College ROTC detachment, Master Sergeant Robert E. Herman and Technical Sergeant Dennis Evangelista, were recently promoted to their new ranks and duties.

Herman and Evangelista are responsible for introducing and assisting cadets in the important initial steps in their Air Force careers.

Herman takes care of military

and financial records of the cadets. He prepares forms and checks signatures until the time that the cadets are commissioned. Herman's family is also living in this area, so he is glad to be here. When asked how he felt about his promotion, he said, "It is nice to be assigned in my hometown."

Correspondence files, payroll and business forms are done by Evangelista. Unfortunately, Evangelista will be leaving in March of 1982 for Turkey for his

new assignment. He commented, "It has been enjoyable showing the kids the Air Force life".

Both men agreed that their jobs are interrelated, as the work they do leads to the commissioning of the cadets.

Both men obtained their promotions by passing the WAPS test (Weighed Air Max Promotion System). This system also involves personal evaluation of past work and merits received while on duty.

## More Parking Spaces Created Yet The Situation Remains Unchanged

by Mary Kay Pogar

The parking situation for students at Wilkes remains virtually unchanged this year, although several more spaces have been created in the Bedford and Old Denison parking lots. Parking is by permit only, and commuting and residence hall students apply for parking stickers through their respective councils.

Residence Hall student parking lots include those behind Gore, Pickering, Sterling, Dana and Doane Halls, the Old Slocum lot on South Franklin Street and the Old Denison lot on Ross St. Commuter student parking lots are those next to Bedford and Parrish Halls, and the Temple Israel lot. Eugene Manganello, Personnel Director, stresses that these are the only lots in which students may park on campus. All other campus lots are reserved for faculty and administration.

The personnel director noted

that the spaces in the parking lots are not guaranteed. Even if a student has a sticker which indicates he may park in a campus lot, he may not park in the lot if it is full and he will block the exit of any car, even if another car is parked illegally in that lot. However, if the one lot is filled, the student may park in another student lot. It is important to note that only residence hall students may park in lots for residence hall students, while only commuters may park in lots reserved for commuting students.

Mr. Manganello cites some of the recurrent parking violations. "The space behind the CPA is a place where many parking violations occur." Often, people park in front of the entrance for the handicapped. Students without licenses indicating they are handicapped also park in those spaces reserved for those who are handicapped. Manganello emphasizes

that all illegally parked cars will be ticketed and may possibly be towed. This policy of ticketing and towing will be strictly enforced.

A school security guard patrols all lots on campus to deal with parking violations. This year the personnel office has tried to improve communication with the guard. The guard now carries a two-way radio on his patrol, for when he finds an illegally parked car, the guard can now immediately contact the personnel office to determine the owner of the car. The personnel office can notify the patrol guard of any complaints they have received of violations.

Students who have complaints about the parking situation on campus should speak with the representatives of IRHC and CC. The councils may then solve the problem themselves, or may refer it to the personnel office.

## 1982 Research Associateship Awards Program Announced

The National Research Council announces its 1982 Research Associateship Awards Programs for research in the sciences and engineering to be conducted in 18 federal research institutions, whose laboratories are located throughout the United States. The programs provide Ph.D. scientists and engineers of unusual promise and ability with opportunities for research on problems largely of their own choosing yet compatible with the research interests of the supporting laboratory. Initiated in 1954, the Associateship Programs have contributed to the career development of over 3500 scientists ranging from recent Ph.D. recipients to distinguished senior scientists.

Approximately 250 new full-time Associateships will be awarded on a competitive basis in 1982 for research in chemistry, engineering, and mathematics, and in the earth, environmental, physical, space, and life sciences. Most of the programs are open to

both U.S. and non-U.S. nationals, and to both recent Ph.D. holders and senior investigators.

Awards are made for a year with possible extensions through a second year; senior applicants may request shorter tenures. Stipends range from \$22,400 a year for recent Ph.D.'s to approximately \$50,000 a year for Senior Associates. Allowances are made for relocation and for limited professional travel during tenure. The host federal laboratory provides the Associate programmatic sup-

port including facilities, support services, and necessary equipment.

Applications to the Research Council must be postmarked no later than January 15, 1982. Awards will be announced in April.

Information on specific research opportunities and federal laboratories, as well as application materials, may be obtained from the Associateship Office, JH 610-D1, 2101 Constitution Avenue, N.W., Washington, D.C. 20418, (202) 389-6554.

## Career Placement Registry Introduced This Semester

Concerned about finding a job after graduation? Now there's a new campus service that can put your resume in the hands of over 10,000 employers both here and abroad.

Career Placement Registry is the new service's name and it is being introduced this semester on over 1,200 college and university campuses across the country.

Career Placement Registry gives students the opportunity to record their personal and academic credentials in an international direct-access database. Potential employers are able to search the on-line system for any or all of the following prospective employee criteria: college, degree, major/minor, grades, occupational and geographical preference, citizenship status, relevant experience, language proficiency, and special skills.

The data students enter into the CPR system is searchable via the Dialog Information Service. Over 10,000 companies in 44 countries currently use Dialog for information retrieval. CPR enables these employers to match the best qualified candidate to any job opening. Liberal Arts graduates, for example, may easily be screened by personnel directors for trainee programs through the use of the system.

For a fee of \$8.00, students may enter the CPR data base for a period of six months. All data entered into the computer will be

returned to the student for verification.

Later this year, CPR will be expanded to include college alumni and executives who are or have been in the work force. This will allow all individuals to enter their college credentials, work experience, and desires for employment. It will further enable present students to continue and update their CPR entry after graduation for as long as they desire.

Initial response to CPR from students, college placement officers, and corporate recruiters around the country has been extremely favorable. "At last," said one, "the career field has found the technology to handle professionally the exchange of information." Declared a student, "The \$8.00 fee is less than the postage I'd spend sending out resumes!"

To obtain your CPR data entry form, stop by the campus job placement center or write directly to Career Placement Registry, Inc., 302 Swann Avenue, Alexandria, Virginia 22301.

According to "Facts and Fallacies," a book commemorating famous goofs, Lord Kelvin, president of the Royal Society from 1890 to 1895, rated two mentions — for a prediction that "radio has no future," and another that "heavier-than-air flying machines are impossible."

## NOTICE

Registration forms and Bulletins of Information for the Graduate Management Admission Test (G.M.A.T.) are available at the Wilkes College Office of Graduate Programs, 16 South River Street, Wilkes-Barre.

Director of Wilkes College Graduate and Part-time Undergraduate Programs, John Meyers, stated the tests will be given on three Saturday mornings during the academic year 1981-82

at the University of Scranton. The dates listed are: October 24, January 23, and March 20. Only one test for summer will be administered on Wednesday evening, June 23.

The G.M.A.T. is designed to provide one predictor of academic performance in graduate management school. Scores are currently used by about 710 graduate schools of management in the U.S. and abroad.

# Sordoni Art Gallery Offers Varied Program This Year

by Lisa Cobb

The Sordoni Art Gallery has been part of the Wilkes College campus since 1973. Over the years, the Gallery has offered many different showings and will again this year offer a varied program.

Cara Berryman, Exhibitions Coordinator of the Gallery, commented that "the Sordoni is the best gallery in the Northeast." She said that the gallery offers more than other local college galleries and is the only one professionally equipped and staffed. The Sordoni is able to offer major exhibits because large museums are not afraid to loan valuable pieces of art to the gallery because of the care given to each art work and because of the schools excellent security system, she said.

The gallery offers showings of the fine arts, sculpture, crafts,

children's exhibitions, and all facets of the visual arts. Part of her position as Coordinator requires Berryman to plan and organize educational activities and programs including lectures, training guides, and educational travel. Members of the Gallery who support it through contributions, called "Friends of the Gallery," are given the opportunity to travel with other galleries' groups to art museums around the world. Recently, members of the group traveled to China and there will be a trip in October to various places in New England.

The next exhibit to be presented from October 31 to November 29 will be paintings and drawings by Edwin W. Zoller. Zoller grew up in Pennsylvania, receiving his BA from the Pennsylvania State University. The Gallery's newslet-

ter, "Gallery Briefs," comments: "Although his work is subdued, subtle in color and abstract in presentation, it is marked by a serenity which has wide appeal."

Berryman noted that it is sad what little use most students make of the gallery. It is conveniently located in the front of Stark Hall, first floor, and is open daily from 1 to 5, Thursday until 9 p.m. and Saturday and Sunday until 5. "We are here for the students," she said.

"If ever we feel that our oath of office need not be kept, how long would we have this society?" a—President Reagan, speaking of striking air traffic controllers who had taken an oath not to strike against the government.

Chamber of Commerce

# Reduction In 1982 Financial Aid Sparks Intense Lobbying Efforts

by John Finn

Significant additional reductions in Federal college financial aid programs for 1982 are now being considered by Congress, and with a vote expected in the next few weeks, COPUS/Wilkes is conducting one of its most aggressive lobbying efforts of the past three years, according to Rich Myers, Executive Director.

Myers stressed the importance of student participation in the next few weeks. He said, "In order for this to work we have to have 100% co-operation from the student body. Otherwise, Washington will continue to cut until many of the programs disappear."

There are presently two bills being considered in Congress, one in the House of Representatives and one in the Senate. The Senate is proposing additional cuts totaling \$581.8 million from the Pell grants, SEOG, NDSL, and SSIG

programs. This amount would bring the overall budget reductions for college aid programs to nearly 20% of the amount needed for full funding of all programs.

The House proposal would trim only an additional \$130 million from the present budget proposal.

Myers said that COPUS will now begin fighting to defeat the Senate bill and to have the House Bill adopted as the final resolution.

The lobbying effort at Wilkes will include several letter writing campaigns to all members of Congress, strongly urging them to support the House proposals. Myers said COPUS will also write to the

parents of all students at Wilkes and urge them to do three things: to write to their Congressional representatives and request that they support the House bill, to write to their Senators and urge them to concede to the House, and to write to President Reagan and demand he not veto the House bill if it passes.

Myers is also attempting to organize a student rally on Public Square, with the participation of all colleges in the area. He said if he can get adequate response from local schools, he would consider inviting State and Federal legislators.

## Ticker Tape

The Wilkes College Theatre Department presents the American classic, "The Glass Menagerie" on Oct. 9-11 in the CPA. Performances begin at 8 p.m. on Friday and Saturday and at 2 p.m. on Sunday. Students are reminded that they may receive 2 free tickets with their Wilkes ID.

A Student Center party will be held tonight from 9 p.m.-1 a.m. honoring the grand opening of "The Cavern." There will be a dance contest and cash prizes will be awarded to the winners.

"Wilkes-Barre Architecture" is currently on exhibit at the Sordoni Art Gallery in Stark Learning Center. Hours for the display are: Sunday through Friday, 1-5 p.m.; Saturday, 10 a.m.-5 p.m.; Thursday, 6-9 p.m. For more information concerning the exhibit, which will be shown through Oct. 25, call 824-4651, ext. 289.

## Van Riper Sets Record..... Spikers Qualify For MAC Berth

by Suzette Dyanick

"Let's get this over with already." "Yeah, let's drop them in three quick ones," and that is just what they did. In their second confrontation with King's College, Wilkes again proved to King's who was the boss. A spike from King's can be compared to a queen swatting at flies. Needless to say Wilkes trampled all over King's in three fast and painful (for them) games, 15-3; 15-9 and 15-5.

Then on Friday and Saturday (October 2 & 3) Wilkes participated in the Juniata College Women's Volleyball Classic. Although Wilkes did not win they did gain tremendous experience. A few of the teams Wilkes faced were West Chester College, Washington College, and, of course, Juniata.

On Sunday, October 4, Wilkes would take on FDU Madison. This was no ordinary game. Pride, self-respect and more importantly, a spot on the MAC Championship scorecard were riding on this game. The power, skill, determination, and perseverance these women showed was by far the strongest anyone had seen all season. Wilkes really wanted this game badly and there was no way they were going to bow to FDU.

Ellen Van Riper, affectionately known as "The Ripper," broke a team record for total points scored in a match by an individual. Ellen scored twenty-one kills out of forty-four attempts in four games. Her hitting in those games was like that of a piledriver pounding steel beams. She also had

seven service aces, giving her a total of twenty eight points scored.

Sally "The Deflector Shield" Fisher did a great job blocking. She had five kills and six serving aces. Sally is the one who prevented FDU from doing serious damage.

Jennifer "The Flame Thrower" Golding kept the hits coming when Wilkes really needed them. She finished with 11 kills and six service aces.

## Cross Country Team Runs 1981 Season Record To 7-5

by Ellen Van Riper

The cross country team upped its season record to 7-5 with a four-victory week. The squad downed Philadelphia Pharmacy 24-31, Baptist Bible 25-31, Cabrini 15-49, and Allentown College 17-39.

The team ran a tough five-mile course in 44 degree weather. Senior captain Ken Pascoe and freshman standout Dave Levandoski tied for first with a time of 28:43. The win was Pascoe's third of the season and was Levandoski's second. Rounding out the top five for the Colonels were Bill Wolfe at 29:17, Tom McGuire at 29:22, and Joe Dill at 31:22.

Coach Bellairs was pleased with his squad's performance, but he made special mention of Wolfe and McGuire. These two runners have made the most progress so far this season. Early on they were two minutes behind the top runners in each meet, but they have

The women of Wilkes really proved their championship talent by blowing away FDU 15-9; 15-10 and 15-11. That was enough to assure them a place at the MAC Championship at Dickenson College on November 6 & 7.

Coach Saracino commented on their success. "The girls have worked extremely hard and I am very proud of them. They are well disciplined and proved that they don't choke under pressure."

cut their times each week and now are under a minute behind. This kind of consistent progress is very significant, for if they keep it up, they will peak by November 7 and the MAC championships.

Another man to watch is fifth runner Joe Dill. Since each team is only as good as its fifth man, it is important that he continually cut his time. Coach Bellairs stressed that the fifth runner has to be extra dedicated, for the team's chances at the MAC's will depend upon his progress.

Right now Dill is the man, but there is a group of runners hot on his heels. Rob Davis is a first-year runner, and he cut his time by two minutes at the last meet. Jim Bell is a senior who recently joined the team, and Bellairs believes that he will push for the fifth spot once he gets in condition. Andy Grant is recovering from a knee injury, and he should be rounding into top form very soon. Bill Lynch has shown steady improvement all season long, and Chuck Harris has improved his time by a minute per week. All of these runners are pushing for that fifth spot, and it should be quite a race down to the wire and the MAC's.

## SPORTS ROUNDUP

### Football by Mark James

The Colonels displayed another lackluster performance on the gridiron last week in what obviously must be one of the poorest games in Wilkes history. Susquehanna University blocked punts, kicked field goals, ran touchdowns, passed for a touchdown, returned a punt for a touchdown, intercepted passes, recovered fumbles, forced a safety, but they did not return any kick-offs. Wilkes only kick-off once. "If anything could go wrong, it probably did," Coach Schmidt said. The only right thing the Colonels did was to show up for the game, and even that can be debated. The score: Susquehanna 48, Wilkes nothing. Next week the Colonels take on powerhouse Trenton State in New Jersey. This week's prediction... never mind.

#### SEASON TOTALS

Team	Wilkes	Opponents
First Downs	18	57
Passing	11-43	38-67
Passing Yards	180	561
Interceptions	6	6
Rushing Yards	168	575
TOTAL		
YARDS	348	1,136
Fumbles Lost	6	4
SCORING	1 2 3 4 Total	
Wilkes	0 0 13 6	19
Opponents	27 30 27 40	124

### Soccer

by Chris DaRe

The Wilkes soccer team has yet to win a game. After last week's contests, the Colonel's record now stands at 0-5. On Sept. 30 the Colonels faced Muhlenberg, and for the fourth straight game they were shutout, losing to the Mules, 5-0.

It looked like the Colonels would make it five straight games without a goal as they trailed

Lycoming 2-0 after the first half of last Saturday's game. Then it happened. The Colonels first goal went to senior co-captain Mike Karnes with Tim Williams assisting on the play. The goal cut Lyco's lead to 2-1, but the Warriors went on to win 5-1.

"We make the same mistakes game after game," Coach Lopez said. During this week in practice, the Colonels have been trying to correct a few team weaknesses.

Assistant Coach Kelly Noseworthy explained the problems, saying, "A couple of our players are playing really good; some of the others are hurting in the fundamentals. Trapping is poor, passing is poor."

The Colonels have moved to a 3-3-4 setup, moving four men to the front line to bolster the attack. Their next test will be Saturday at Moravian College in Bethlehem, Pa. at 2:00 p.m. Wilkes next home game is Thursday, Oct. 15, against Elizabethtown. Game time is 3:30 at Ralston Field.

### Tennis

After a well-played 9-1 victory over Baptist Bible, the women's tennis team upped its record to 2-3. The team had previously lost to King's and Scranton, then picked up a forfeit from Upsala. Before the Baptist Bible match, the Lady Colonels hosted Bloomsburg at Ralston Field and lost every singles and doubles match.

Wilkes did much better against the Baptist Bible team than against some of the tougher competition. Lisa DelGaudio, Cathy Price, Terry Monseur, Trish Palys and Charlotte Fees all won singles matches. In the doubles competition the teams of DelGaudio/Monseur, Palys/Price, and Fees/Reilly all came up victorious.

## Meyers Changes Formation Weiss Leads Field Hockey Attack

by Mark James

In three games last week the Colonelette field hockey team won, lost, and tied, but a few changes in the offensive attack improved Wilkes' performance.

The Lady Colonels hosted a weak Misericordia team last Wednesday and came out on top

of a 5-0 score. Leading scorer Michele (Mitch) Weiss slapped in three goals with the help of Jean Dougherty, Debbie Cometa, and Diane Hall. Hall went on to score two more for Wilkes with assists from Diane McGovern and Sandy McCarrol.

On Saturday, the Lady Colonels traveled to Bloomsburg for a double header against the University of Pittsburgh and Bloom. Wilkes battled to a 1-1 tie against Division II Pitt. before losing to Bloomsburg 1-0.

"We need the good competition if we're going to get any better," Coach Meyers said, but the competition made winning too difficult for Wilkes.

Against Pittsburgh, Cometa, a freshman, scored the lone Wilkes goal with the help of Weiss, the

team's leading scorer with 4 goals and one assist so far this season. Pitt. outshot the Lady Colonels 17 to 14, but goalie Valerie Frey saved ten.

Against Bloomsburg, Frey blocked 9 more shots, but Wilkes could not come up with a score and was outshot by their hosts, 15 to 5. "It was an intense game," Meyers said. "The competition was super."

OFF THE STICK: "The attacking combination is beginning to fall into place," Coach Meyers was happy to note. Before the Misery game, Meyers instituted a new formation into the Wilkes offense. Instead of using "links" that basically play in the midfield range, the Lady Colonels returned to the traditional 5-3-2 lineup.
